OLYMPIC TIME AT LAST

Well, I don't know about you, but I am excited. The Olympics turn me on, no doubt. Eugene was a great meet and many people there were commenting that Munich would be anitclimatic. No way! There are too many greats in the rest of the world to challenge the Eugene heros. By the time I get this old rag put to bed the Opening Ceremonies will be history and by the time it gets to you, the track and field events will be either already under way or just ready to start. (Depending on how long I dilly-dally around.) So with the 20 km Walk on the first day (Thursday, Aug. 31) part of what I say below might already have been proven wrong by the time you read it. In any case, let's take a quick look at how what may well be the two greatest walks in history shape up.

First the 20. From here, it appears to be a six, possibly seven, man race with the six having been battling it out at various venues over the past 5 years. No one has really getten the upper hand in this series of classic duels. The six are Vladimir Golubnichiy and Nikolai Snaga of the Soviet Union, Hans-Georg Reimann, Peter Frenkel, and Gerhard Sperling of East Germany, and Great Britain's Paul Nihill.

Golubnichiy has the most consistent record and the greates experience of the group and this wily veteran will certainly be tough to beat. He already has three Olympic medals, golds in 1960 and 1968 and a bronze in 1964. In the recent duals he finished second to Smaga in the 1967 Lugane Cup race and second to Reimann in the 1970 Cup race besides his 1968 Olympic geld. Smaga was third in Mexico, third behind Nihill in the 1969 European Championship, fourth in the '70 Cup, and first in last year's European Championship, a race Golubnichiy did not contest due to injury. The three East Germans have traded places in numerous fast races at home with Sperling most often third. But he has been probably their most consistent man in International meets. He was fifth in Mexico, fourth in the '69 European, and second in last year's European. He fell to sixth in the '70 Lugane Cup. Reimann, who scored a brilliant victory in the '70 Lugane Cup, managed only fifth in the two Europeans and seventh at Mexics City. Frenkel's best races, despite twice breaking the world's record, were third in the '70 Cup race and fourth in last year's European. Mihill wen the '69 Erupean but was only third last year.

That is how they have done in the past. This year, the three East Germans proved they are physically ready, all going under the world's record in a historic track race, with Reimann and Frenkel tieing for first. Galubnichiy recently wen the USSR Champienship in 1:28:54.2 on the track but Smaga finished only third. But off his record, one has to figure he will be ready for better things in Munich. Mihill, meanwhile, has been fantastic. On an early July training holiday in Sweden he walked three 20 Kms (1:32 plus, 1:33 plus, and 1:37 plus, the latter being long) and three 5 Kms in under 21:00 in a 14-day period. The final 5 km was a

world's best ever perfermance of 20:14.2, passing three miles in 19:33. Then on July 30 he had his final tune-up for Munich--a 1:24:50 for 20 Km. This was first reported as a new World's record but it was not on a track. However, the 906 yard loop it was contested on was confirmed by a surveyor's wheel.

The seventh man, who could crack this old guard, is West Germany's Bernhard Kannenberg who has turned in great times from 10 to 50 km this year. He apparently is the only top man ether than Larry Young to contest both races. His recent 10 km victory in 41:36.2 ever Smaga and Gelubhichiy confirm his credentials and, according to our British confidant, Celin Young, he is the only one of the current crop of speedy West Germans whose mode of progression is fair at all times. As to Larry Young, although he sincerely feels he has a shot at a medal and he is quite likely to slash a couple of minutes off his best, he just does not appear to have the speed to match these others. He could easily be the best of the rest.

At this point, Nihill looks to me to be the man to beat. He is obviously in shape to match any pace and with the speed he is showing it is hard to see him being left in the final 5 km as he was hest year. Golubnichiy looks like the man for second, tough, grizzled old veteran that he is. After that, it is hard to say, but Itll go with Sperling, Smaga, Reimann, Kannenberg, and Frenkel.

On to the 50, on Sunday Sept. 3. Here, there appear to me to be fewer men really in it. I think it shapes up as a race between the defender Christoph Hehne of East Germany, his teammate Peter Selzer, the Russian Benjamin Soldatonko, who was so brilliant last year, and the two doublers, Kannenberg and Young. Hohne, who was virtually unbeatable for four years, fell off somewhat last year and has been somewhat less than brilliant this year. As a matter of fact, he has dropped out of two race, including the East German championships. However, the East Germans have confidence enough to send him and he will no doubt be ready for a good try at defending, in what may be his last big international race. Selzer, who is still only 26 and has been getting tougher each year, was out earlier this year with an injury but has appeared in recent races to be appreaching his brilliant form of last year. Soldatenke wen the USSR Championship in 4:13:28.4 on the track, which is not frightening. But we know from last year that he can do much better and ne doubt will in Munich. He managed a 43:27 10 Km in the race in which Kannenberg did 41:36, which is better than Larry Young has dore, but then Larry hasn't had that kind of competition to pull him out. We still den't knew much about the course on Kannenberg's 3:52 but don't look for him to do anything like that in Munich. The question with both he and Larry Young will be how much the 20 takes out of them both physically and emotionally. Larry is convinced it will have no effect on him and in fact believes it will help him physically. He claims to have physiological evidence of this and if he didn't race, would have an extremely hard workout at that same interval before the race. The question is more one of how he can handle it mentally.

There is prebably 2 bit of chauvinism and a lot of hope in this, but I really think Larry has a shot at the gold and, by golly, I am going to pick him. We really don't know what he can do because he hasn't really had any competition over the distances. He is obviously much improved over 1968 both in speed and strength. He is walking world class times at all distances and any one whe can walk two sub 8-minute miles at the end of 100 miles is certainly strong. Walking sub-8's over the last 25 km in

Eugene's heat was certainly impressive. Heat may well be a factor in Munich from all I read, and Larry is probably better equipped for it than anyene. And, above all, he is just one tough competitor. After Larry, Soldatenko should come second, Hohne may edge Selzer for third, and Kannenberg should manage fifth. Others who could be factors are Karl-Heinz Stadtmuller of Fast Germany and Otto Battsch and Sergiy Grigoryev of the USSR. Stadtmuller won the East German title in a quick 4:06 but he is only 19 and a race of this magnitude at this distance may be too much for him. Bartsch and Grigoryev were less than a minute back of Seldatenko in their National race but Bartsch has nover quite made it an International race yet and Grigoryev does not have the International experience.

So there you are. Hopefully TV coverage will be good enough that you can see how good or bad I did for at least the first six. If not, try and get to the New York Times or one of the other of the few papers that will carry complete results. Don't rely on the Columbus Dispatch or Citizen-Journal.

Whoa! A retraction. The heat will not be a factor in Munich. Just after typing that last night I heard a weather forecast as part of an Olympic report on the news calling for a cold rain and no warming trend sight ever the next two weeks. Doesn't alter my predictions, however, which I notice are pretty much in complete disagreement with those of Sports Illustrated; that bastion of race-walking news having just arrived.

YOUNG ADDS ANOTHER

Leng Branch, N.J., July 23-In his final race before departure for Munich, via Oslo, Larry Young survived stifling heat to win the NAAU Sr. 40 Km. It was Larry's 7th title of the year and 17th of his career. With the temperature hitting a high of 93 and the humidity also extremely high, Young paid the price for a fast early pace and for the first time in his career had some serious thoughts about dropping out. However, he perservered and came home in 3:39:59.4, still nearly 8 minutes ahead of second place John Knifton after leading by 10 minutes at the half way mark. In the Junior National held simultaneously, Bill Burley from Fairfield, Conn. emerged on top, finishing sixth everall.

With 49 starters, only 28 managed to finish in the severe conditions and only three bettered 4 hours. Only Young and Tom Knatt chose to ignore the weather at the start and pretend it was a normal day. Larry passed 5 km in 26:15 with Knatt only 7 seconds back. Next in line were Knifton, Todd Scully, and Goetz Klopfer in a very sodate and sensible 29:58. By 10 km Larry was on his own in 52:35 with Knatt over 2 minutes back. The other three had picked up somewhat with Kaepfer going through in 57:12, Knifton in 57:31 and Scully in 57:32.

Larry continued to push the pace despite the conditions, which he described as "just brutal" and passed 20 km in 1:42:27 with Kniften 10 minutes back and Scully, Klopfer, and Knatt together in 1:54:04. Larry then fell to an unheard of, for him, 61:19 ever the next 10 and Kniften was only just over 6 minutes back. At the same time, Scully closed a little ground on John while Knatt and Klopfer dropped completely out of contention. In the final 10, Young pulled out that little extra and got his pace back up to about 56 minutes to extend his lead slightly ever Kniften, who also finished well considering the heat. Tom Knatt in this final 10 not only could not hold Klopfer but barely held off the grim reaper", as he put it.

In the Junier race, the Shere AC's John Skislak was with Burley at 15 Km and less than 2 minutes back at 30 but could not meet the challenge and finally came in 62 minutes back. In the team races Shere AC captured both the Senier and Junier titles. In his account of the race, Elliett Derman points up an interesting fact that Goetz Klepfer is the only two-time Olympian in walking annals who has never wen a Seenier National AAU title.

AND THEN A FINAL TUNEUP

Osle, Nerway, Aug. 3—Larry Young walked his best ever 10 km to win an International race here tenight. Leading after the first 660 yards, Larry recorded a personal best of 44:02 in this track race. Goetz Klopfer also walked a personal best, an excellent 44:34. He was pushed hard by Nerway's Jan Rolstad, who, according to Eruce MacDonald was assisted by a lack of judging. The entire U.S. team took part with Steve Hayden and Bill Weigle also recording what may have been personal bests. Tom Doeley, feeling a bit under the weather, walked well but lost fourth place in the

JUNIOR 1 HOUR TO NEWMAN

Menmeuth Cellege, N.J., Aug. 6—The Long Island AC's retund redhead, Larry Newman edged Randy Mimm, sen of an Olympian, to capture the Jr. National 1-Hour Walk teday. Battling temperatures in the 80's, Newman powered his way past 7 miles and still had time for another 62 yards, leaving young Mimm some 34 yards in his wake. Beb Specht, wan of the ORW's leading photographers, journeyed out from Detroit to take third. With Newman ineligible for the team race, Mimm's finish led his Penn AC team to the team title as the hest Shere AC, having used up most of their Juniors in earlier team races, slumped to third. WOMEN'S WORLD

Jeanne Bocci is doing quite well this summer for an old broad with two children. After winning the AAU 1500 meter in Canton with a 6:59.1 she went to Frederick, Md. the next week for an exhibition 1500 at the Wemen's Olympic Trials and came down to 6:50.4, which would have undoubtedly gotten her under the World 1 Kile record of 7:27.2 and she gone on. Her approximate 440 splits in this race were 1:41, 3:31, and 5:23. In the second race, two other girls also broke 7 minutes, with Californian Sue Brodock showing tremendous improvement from the previous week to edge Jeanne's teammate, Lynn Olson, for second. Results of these races: Canton, Ohio, July 1-1. Jeanne Bocci, Welverine Parkettes 6:59.1 2. Lynn Olson, WP 7:06 3. Sue Brodock, Rialto R.R. 7:14.1 Frederick, July 8-1. Jeanne Bocci 6:50.4 2. RUSSIANS SWEEP JUNIOR MEET

Sacramento, Cal., July 29-In the first ever US-USSR Junior Track & Field Meet, the Soviet walkers emerged as easy winners in the 10 km. In this read race, Anatolly Solomin and Nikelai Strelychenke, with bests of 43:35 and 46:07, were content to stay with Hewie Palamarchuk through a 26:15 5 km. The second US competitor, Jim Bentley, was disqualified at about this point, although he had slowed considerably after an early caution. From the 5 km point, the Soviets accelerated, and Palamarchuk, suffering in the heat (Over 90), could not respond. The Soviets tried to tie, crossing the line holding hands, but the officials gave Solomin the nod in 51:00.6. Palamarchuk finished in 55:51.6. He did have the distinction of being the only Russian-American in the meet, while Bentley was the youngest competitor at 16.

He has excellent style and is very strong; evidenced by the fact that he can carry 9 minute miles with no preparation. If he decides to take walking seriously, he might give Steve Tyrer a little tussle in NAIA races. Ben Benedict also comes out of the Dayton All-Comers meets and at 15 is an excellent prospect. In this race he get a little creepy trying to catch Eob Smith down the last hill, very creepy as a mater of fact, but he has good style once he gets the strength to held it at speed. Rlackburn bombed out and picked up 31 seconds on Mortland the first lap with sub 8 minute pace (1 mile 1014 yd laps). Mortland chose to walk a conservative race and managed to make each of his five laps faster but Blackburn was able to pick up again on his last lap and stay well clear of trouble.) 6 Mile (minus about 250 yds), Dayton, Aug. 12-1. Clair Duckham 63:44 (Elackburn bombed the first lap at about 7:45 pace, which Mertland could not hold and held a good lead all the way as both slowed under a hot sun. Dale Arnold did very well for not having trained all surmer but just held off a hard charging Doc Elackburn who had one of his bost races of the year. Hey! I left Bob Smith out of the results. "e had 61:54 and does not like hot weather. Actually, we were quite lucky in both of these races as the humidity was nothing like it has been most of the summer.) 1 Mile. Chicago. July 25-1. Although the AAU Code says only that Olympic or Pan-Am team members are ineligible for Jr. Olympic competition, Ollan Cassell, the AAU T&F Administrator had apparently issued a bulletin atating those that competed in the US-USSR meet would not be eligible and then could not be reached for an appeal. Herman led mest of the way, from about 300 yards on, and showed excellent style. As of now, this event will just be contested in alternate years at the Junier Olympics but one would hope that action can be taken at this year's convention to make it a regular event. 10 Years Age (From August 1962 Race Walker) -- Good shot of Vladimir Golubnichiy and Anatol Vedyakov on the cover. These two easily swept the US walkers at 20 km in the US-USSR dual meet at Palo Alto. Golubnichiy 1:37:51.3, Vedyakov 1:38:28.3, Ren Zinn 1:43:34.1 and John Allen 1:44:04.4Ron Laird won the Senier 35 Km by ever 20 minutes in a rather slow 3;20:21 in Seattle...And John Harwick won the NAAU Jr. 30 km in 3:05:30 leaving one Regis Brown, now better known as Jerry, some 8 minutes in his wake...John Allen blasted a 14:38.5 two mile in Elmira, second best of the year in the country ... Good article on walking shoes written by Johnnie Walker, the pseudonym of a famous US race Walker who wished to protect his amateur standing.

5 Years Age (From August 1967 Ohio Race Walker) ... Ron Laird was the star of the month and then some. He first won the Pan American title in 1:33: 05.2, leaving up and coming Mexican runnor, or walker, Jose Pedraza nearly 2 mirrutes back then did a 43:10.4 10 Kilo on theroad in England, a 44:36.8 American record on the track in Garmany, a nd a 1:28:18.2 20 Km to beat Abdon Pamich IN Italy...Larry Young walked the same three European races in 45:29, 46:22.2 and somewhere in the low 1:30's after winning the Pan Am 50 Km in an excellent 4:26:20.8... With these two in Europe, Tom Dooley had his best ever distance race to win the AAU 40 Km in 3:30:10, 2 mirutes ahead of Goetz Klopfer, in Long Branch. Bob Kitcehn showed his great promise at the distances with a third place 3:34:04...Deoley was fourth at 20 and Klopfer 3rd at 50 in the Pan Ams. However, Bill Ranney upset them both in an earlier 15 miler in Berkeley in 2:02:40

If you feel you are not getting all the news in the ORW, or at least the stories behind the news, you had best pick up on the Guano Press.. This coutstanding example of Pulitzer journalism picks up where the ORW left off 4 or 5 years ago when we started to feel responsible and silly things like that. The Guano Press, edited by Greg Diebold, Howie Palamarchuk, and Gerry Willwerth, tells it like it is, names names, and pulls no punches. For example, in their brief discription of the National 20 they say, "The next 15 walkers (after Young) were close to each other, but none were very close to the ground." Or on their coverage of the Women's Mational the Headline reads "1:36 opener "Lifts" Jeanne to National Crown" These are rather mild examples of what you can expect to find in the pages of the Guano Press. Get it today. But remember, it is only a supplement to the ORW, telling the things your gutless editor won't in the sanitized pages of the ORW. TIDBITS, POTPOURRI, THIS AND THAT, AND PERHAPS A BIT OF ETC.

Change the time of that Labor Day 6 mile plus handicap in Werthington to about 2:15 p.m. I just noted that the Olympics are on from 12 to 2 on that #Oh, no! Rats! Typewriter just busted. You were supposed to get four more pages of goodies. No other typewriter available today and I want toget this to the printer tomorrow. So that's it.

U.S. vs. Canala now set for Sept. 23 (50 Km) and Sept. 24 (20 Km) in Toronto. Start at 10 am. each day. Four men perside. U.S. team to be selected from those available based on placings in Final Trials. This Word just received from Charles Silcock via Ma Ball's system.
