In a late-breaking news event (not really late breaking at all, just late arriving at the ORW offices), Larry Walker walked off with the NAU 1 Hour title on Nov. 21 in Westwood, California. Larry covered 7 miles 1373 yards to leave Ed Bouldin better than 3/4 of a lap behind. Bouldin won a close race with Veteran Rudy Haluza and Wayne Glusker. Ron Laird, wearing his winter fat apparently, was a distant fifth.

A month later, Haluza won the Master’s 15 Km Championship virtually unopposed in an excellent 1:15:21. No details on either race, but here are the results:

NAAU 1 Hour, Nov. 21 --
1. Larry Walker 7 mi 1373 yds
2. Ed Bouldin 7 mi 1031D yds
3. Rudy Haluza 7 mi 1016 yds
4. Wayne Glusker 7 mi 999 yds
5. Ron Laird 7 mi 603 yds
6. Harry Adriano 7 mi 235 yds

10. Travis Veen 6 mi 823 yds (1st Junior)
11. Hampton 6 mi 792 yds (2nd Junior)
12. Hal McWilliams 6 mi 153 yds (2nd Master, Kelly was first as apparently Rudy did not enter that category)
13. Phil Moore 5 mi 1188 yds (3rd Master)
14. Jim Fields 5 mi 1140 yds (4th Master)
15. Stafford 5 mi 990 yds (3rd Junior)
16. Lipstein 5 mi 979 yds
17. Bob Long 5 mi 312 yds (5th Master)
18. Donke 5 mi 89 yds (4th Junior)

Marce, Hector Mahau, Ed., 74 Avenue Reine Astrid, B-5000, Namur, Bel.—An annual compilation of results, records, and reviews since 1968. 1968 featured a history of "Grandes Classiques", 1969 an Olympic anthology, 1970 the Strasbourg-to-Paris history, 1971 a history of world records, 1972 an Olympic history; 1973 biographies of outstanding walkers. The ultra-long races always receive good play. Back copies are still available, I believe. The trick is reading them if you are monolingual, as I.

**RACE-WALKING BIBLIOGRAPHY**

True to my promise, amazingly enough, here is the bibliography I promised you last month. Additions and corrections will be welcomed and appreciated.

### PERIODICALS

- **Danish Gangforbund, Palle Lassen Ed., Bilowavej 46, 1870, Copenhagen V, Denmark—a monthly paper primarily on Danish race walking.**
- **Gangfleld, P, 104, Stockholm 14, Sweden—a monthly magazine on Swedish race walking with some international coverage. Lots of pictures but they use the same ones over a lot.**
- **Internationaler Gehsoorten Bericht, Egon Rasmussen, Ed., Bisningvej 12, 2730 Herlev, Denmark—a periodic compilation of world-wide results and statistics. Monthly during peak season.**
- **Gangforbund, P, 104, Stockholm 14, Sweden—a comprehensive monthly report on the British race-walking scene with some international reviews.**
- **Belgium—There is a Belgian monthly walking paper, which I get but don't have any of now. Available from Hector Mahau, 74 Avenue Reine Astrid, B-5000, Namur, Belgium.**
Menke, Frank G., Encyclopedia of Sports, "Walking", pp. 611-12, A.S. Barnes, New York (1964)—There is also a 1953 edition and maybe something later than that. I have the 1944, from my youthful sports book collection days.

PERIODICALS

"Dan O'Leary, World Known Walker", Newweek, p. 17 (June 10, 1933).

"Walking Do Run Not..", Sportsfile, p. 39-40—I don't see the date. I ran a copy of the article, provided by Ray Leach, a couple of years ago but neglected to include the date of publication. The article is about John Deni.

Toomai, Rudi, "Race Walking", Track Technique, No. 3 (March 1961).

I think there was also a Saturday Evening Post article in late 1960 or early 1961 but I don't have the reference. There was also the recent article in the 100-miler, the bibliographic data on
from time to time: Stratford Spartans (Conn.), North Bedford Club (Mass.), New York Athletic Club, New York Pioneer Club, Long Island A.C., U.S. Merchant Marine Academy, 92nd St. YMCA (New York), Shore Athletic Club (N.J.), Potomac Valley Walkers (Wash. D.C.), Philadelphia A.C., Burgettstown Track Club (Pa.), Ohio Track Club, Motor City Striders, University of Chicago Track Club, Green & Gold A.C. (Chicago), Columbia Track Club (N.Y.), Colorado Track Club, Tobias Striders (L.A. area), West Valley Track Club (Carson, Calif.), Club Northwest (Seattle). I will now await nasty letters from all these & others to the point of cost of charges of address changes as far as possible ahead of the change. Sometimes they say the new address, in which case I forward it at a cost of 13¢, and sometimes they don't, in which case I write the addressee off until I hear from him. Since it often takes more than a month for an undelivered issue to get back, I can already have another issue on the way to the old address. And there goes another 25¢ with a U.S. stamp. So advance notice of your moves helps me both. It's amazing how many people move. I run address labels for only six months at a time. At the end of that period I usually have about 50 copies that I am hard addressing, about half because of address changes, the rest new subscribers. (I lose subscribers too and the net change is never too great.)... Jeanne Bucci is confining most of her activities to running these days, which is why you don't see much of her in the results section anymore. She will be a girl's track coach at Grover Cleveland High School this year. It seems like miracles do happen. Bob Nash received his December initials of the U.S. in near mint condition, the first time in several months that it had either not arrived at all or had been mutilated along the way. New Jersey seems to be among the slowest in the delivery of Second Class mail (along with the Metropolitan New York area), but apparently that ain't enough. They have had to add a machine to tear the mail (along with the Metropolitan New York area), but apparently that deserves more attention than we are giving it. The chapter on walking in The Super Athletes is interesting, from anecdotal view, although very poorly researched as regards records. Some of the miscellaneous performances they list follow (some of these are also documented in The Short of Race Walking). In 1899, Captain Barclay Allardice of Ury, Scotland, on a 1000-mile walk for 1000 crowns in 118 days, averaging 8.87 miles a day. He should have been better known. Another side bet, he reportedly made about $100,000 on the venture. Six years later Josiah Eaton went a mile each hour for 1100 hours and the following year completed 1984 miles in the same number of half-hours. Doesn't leave much time even for cat naps. In 1915, a professional walker, George M. Brown, reportedly walked 100 miles in 11:24:56, nearly 7 miles an hour—a European professional walker, Anton Hanhsley, once pushed a perambulator carrying his wife and small daughter over a distance of 15,000 miles in 22 months, averaging 22 miles per day. In the 1890's, an unnamed man pushed a wheelbarrow from San Francisco to New York City in 118 days, an average of 33 miles per day. Nothing is said about what it was he needed to transport to New York in his wheelbarrow—perhaps a special madam. Dick Barstow, walked 41 miles on the tips of his toes.

LOOKING BACK

5 Years Ago (From the January 1972 Issue)—There was some fast early-season miling back then, too. In Philadelphia, Ron Daniel blistered the third fastest indoor mile ever with a 6:12.8 as Ron Kilik, Todd Scully, and Dave Ramey followed in 6:21.7, 6:21.6, and 6:28 respectively. Ten days earlier, he won the 1500 meter run with a 4:26.7. In Madison's 6:29.4, across the country Tom Dooley did 6:30.5 to beat Esteban Valle's 5:38 and Larry Walker beat Don DeCono 6:14.6 to 6:14.8. Bill Runney was a close third in both races. The championship season got underway only a week into the new year with San Rafael high school student Jerry Lansing winning the National Junior 35 in 3:18.21. Jesse Bentley, Jr., Brad Pringle, and Bryan Grubbel followed. On the local scene, your editor celebrated his birthday with a 1:26.7 in a two-man race. Three hours later he took to bed for 3 days with Bill burg-burg or some such. Steve Tyler won the NAIA 2 Mile in 1:49:50 with Dale Fans 33 seconds back and Mike DeWitt another 19 seconds behind. This was the first year for the walk as a scoring event in this meet. Out in Colorado, Jerry Brown was in fine shape with a 13:55 for 2 miles and Bill Regule walked with a Marathon in a rapid 3:33:33. Ron Laird was off in England and walking well. In November, he finished second to Paul Nihill with a 20:50 for 7 miles. Two weeks later he was 2 seconds slower but came first in another 7 miles. Then in January, he too celebrated his birthday with a 1:33:35 for 20 Km on the track in Scotland. Now turn the page and find the complete record of the U.S. in Olympic and Pan-Am race walking, as compiled by Larry Larson, Enq., Racine, Wis.
