## WEIGEL BETTERS OWN 50 KM WORLD MARK

Potscam, E.G., May 25--East Germany's Ronald Weigel blew away a strong international field in the final 20 Km to better his own world's best performance for 50 Km . His 3:38:17 was 14 seconds better than the previous best, which was also a Weigel performance in 1984. Weigel's spectacular race highlighted the 6 -team internatinal match, which also included a 20 km and 10 Km races for women and juniors.

Weige7, now 35 years old, was the 1983 World champion and ranked number one in the world in boith 1983 and 1984. In 1984, he was also ranked second at 20 km . In today's race, countryman Hartwig Gauder was still close as Weigel went through 30 Km in 2:12:07, with Dietmax Meisch and Swede Bo Gustafsson still incontention. However, Weigel's final 20 km of $1: 26: 10$ (he had done the first 20 in $1: 29: 11$ ) left Gauder better than a mile behind at the finish. The rest of the field, including such stalwarts as Maurizio Damilano, Sandro Bellucci, and Jose Marin, were spread out well back. The race being on the raod, Weigel's time is recognized only as a "world best". The official world record, which must be on the track, is still Raul Gonzales 3:41:38.4 in 1979.

With Ralf Kowalsky and Axel Noack finishing one-two in the 20 km , the East Germans easily won the meet, With Italy second. Sweden ${ }^{\circ} \mathrm{s}$ Monica Gunnarsson was an impressive winner in the women"s 10 in 46:05.

## EROM HEEL TO TOE

Giulio de Petra, Italian Consul in Monterey and impressario of race walking in that area, journeyed to Europe for the European Masters Championships. He came back with gold medals in the over 70 for both the 5 Km ( $31: 03.64$ ) and $20 \mathrm{Km}(2: 11: 47)$. . In the June lssue we listed Cliff Mimm as a finisher in the National 30 Km . Actually, it was his sister Noreen, who made her first attempt at distance racing very successful, leading three other women home. . .For those seeking an island vacation, entries for the Honolulu Marathon, which includes a race walking division, are now available. The entry deadline is October 1 if you want to pay only (?) an $\$ 18$ entry fee. (A small part of the cost of getting to the race, however.) Deadline for the $\$ 30$ entry fee is December 6 . The race is sometime after that, but my the $\$ 30$ entry fee is December 6 . The race is sometime after that, ${ }^{\text {information doesn't tell me when. Contact } \mathrm{Dr} \text {. Dan Fitzpatrick, } 95-311 \mathrm{Al}_{0}}$
 Pl., Mililani, HI 96789 (Phone 808-623-5575) for entry blanks and details.. Leonard Jansen, who has been contributing much on the technical side of our
sport, has been forced to resign his positions on racewalking's Technical Services Committee, Sports Medicine Comittee, sports Science Committee, and Men's Development Committee. The USOC, his employer in $\mathrm{C}^{0}$ Iorado Springs, has decreed that its employees cannot serve on National Governing Board Committees, fearing conflict of interest. Since he can't afford to give up
his job, leonard has reluctantly resigned his committee positdons. However, he plans to continue serving these functions in whatever way he can. . .I know you won't believe it, but the ORW has made another mistake. I think we made one in 1971. Our editorial comment in the July issue that Larry young is one example of a great race walker that did not experience disqualification was in error. Bob Bowman reports: "Iarry was disqualified in three straight races in the summer of 1966 , including the U.S. vs. British Commonwealth Meet. Following these disqualifications, Iamy stopped racing for 6 months. He did not complain about the rules, but he did correct has faults by studying films of his form and sought help with his technique from experienced judges. I'm convinced that it was this mature attitude by Lamry that ultimately lead to his two Olympic bronze medals. I doubt if you would find him smong those wanting to eliminate the contact rule" (Ed. I could beg off by saying that Larry was not a great race walker when he suffered those disqualifications, but I won't. Further, Bob is off a bit somewhere in his story. Less than 3 months after the British Commonwealth, Lerry won his first National at the 50 Km in Ghicago, so if he stopped racing for 6 months, it was immediately after that. In any case, Bob's point about Iarry's attitude is very well taken.). .

## GIRL'S WALKING CAMP RULED SUCCESS

## by Steve Vaitones

$S_{\text {mmer camp for some of this country's top young walkers was more }}$ than fun and games as eight junior women from around the country took part in the annual Eastern Womens Track and Field Development Camp held at Lake Placid, N.Y., July 23-27. This was the first full-fledged TAC development walking $c$ amp held for several years, and the first ever held for women in a U.S. Olympic Training Center.

The facility, though somewhat cramped due to restructuring, remodeling, and land acquisition projects, provided an excellent athletic atmosphere in which to train and learn, as national teams from Lage, Ski, Bobsled, and Canoe/Kayak shared the center with the track and field athletes.

The camp hosted about 70 athletes, staff, and ovserving coaches, and covered all track and field events. The focus was not 5 days of intense training, but a structured learning approach with constructive feedback. Athletes in each event were instructed to use this information ot develop and undrstand long range training programs.

General interest presentations were held in the morning and evening. Specialists had been brought in to present and discuss sports physiology, biomechanics, nutrition, injury care and prevention, mental training for peak performance, and the inner powers of the mind (topped off with a hypnosis demonstration). The remainder of time was set up for group leaders to present their event from square one.

The camp began with a general skill testing session at the track, as the development staff sought data on what skills can guide individuals to
pecific events. Tast year's camp included only two walkers, which skewed he data and brought about a few snickers ( 9.3 seconds average for the 50 yard dash?), but this year's group measured favorably with the gneral camp performances.

The walkers were led by Bruce MacDOnald, Junior Women's National Coach and..one of the true pioneers fo women's walking in this country. He was ably assisted by Eruce Douglass, of Ledyard, Conn.

Though all of the walkers had achieved some level of succes in the sport, few had the experience of either full-time training partners or a structured walking program. Thus, to get them all off on the same foot, thefirst full day began at square one with the very basics of racewalking. Following sessions progressed through stretching, drills, technique, and training, and elaborated on the general presentations.

One heavy topic camp-wide was body fat percentage, as skinfold tests were conducted on the curios athlete population. The results, interpreted for the group by Bruce D., again showed similarity to the general athlete average at the camp.

Besides the actual work, a sense of team and comeraderie grew among these women, which was unmatched with any of the other track events at the camp, and which will certainly help them develop over the next few years.

Just as important as the camp itself was the fact that it was included as part of the overall track and field camp. This afforded the opportunity for other athletes in the sport to see walkers in training, for walkers to get to know athletes in other events, and to take advantage of the many specialists who came in to present guest lectures (which would have been impossible were we to have solely a walkers' camp.)

A hearty thanks should go to Bruce MacD $D_{0}$ nald for his excellent program presented to our youg walkers, and to Camp Director, Dr. Nell Jackson of SUNY-B nghamton, for helping to "mainstream" racewalking into the overall track and field program.

Walkers in attendance dere: Deirdre Collier, Blauvelt, N.Y.; Nora Somans, Smithtown, N.Y.; Margaret Fisher, Lincoln, Neb.: Nicolle Gustafson, Sayville, N.Y.; Precious Hill, Waltham, Mass.; Deborah Johnson, Cemo, Missouri; Diane Margraf, New York; and ,aura Nakland, Valley Central, N.Y.

Afinal reminder to those planning to bid for a 1987 Race Walk Championship: bids must be received by Tori Maymard by October 4 in order to meet TAC Operating Regulations. Application forms, id you do not yet have them, may be obtained from Lori at 2821 Kensington Road, Redwood City, CA 94061; or call her at (415) 368-2801. The TAC Race Walking Committee looks forward to high quality races to be conducted on certified courses (remember that certification no. or copy is to be included in bid).

## Saxby overcomes baggage blues to take Moscow gold

Champion Ballina athlete Kerry Saxby faced more than one ordeal to secure her Commonwealth and Australian record in the women's $10-\mathrm{km}$ walk at the Goodwill $10-k m$ walk at the Good
Games in Moscow last week.

Saxby, a student at the Australian Institute of Sport, already had won the women's world criterium in Italy three weeks previously.

In Moscow, she competed against the best Russians and Chinese, overcoming heat, humidity and strange surroundings.

But her bid for gold was upset slightly when her luggage went astray, leaving her with one dress, a pair of shorts and her tracksuit pants for the eight-day Moscow stay.
"The interpreter kept on saying that it would be all right," Saxby said yesterday at her parents home at Ballina.
"He kept on saying that bad luck now would mean good luck later on."

To augment her depleted wardrobe, Saxby spent the rest of the Games borrowing garments from team members and washing her dress every night.

To establish the new Commonwealth and Australian women's $10-\mathrm{km}$ walking record, she changed her race strategy.
"Instead of walking with the pack and making a break during the final two or three kilometres, we had to set the pace from the start," she said.
"At the Isle of Man races carlier, the Russians and Chinese were very fast to finish, breaking awa" from the pack and leading for the final laps."

At the Goodwill Games, Saxby and fellow Australian Sue Cook, the former record-holder, set the pace from the outset.
"After two or three kilometres, we were too far out in front and they could not catch me," Saxby said.
She not only set a new Commonwealth and Australian record - she won the Russian national title in women's race walking.
The nationals were held as part of the Goodwill Games.
While she can claim the first two records, and was presented with a medal for the Russian nationals, her name will not be nationals, her name will notian champion.
The new record of $45: 08.13$, replaces that held by Sue Cook for more than three years.
Cook also was the holder of the world record of 45:20, which she set in England.
The current world record, held The current world reco.
by the Chinese, is $44: 45$.

The high point of the Moscow games for Saxby was witnessing more than 80,000 people in the stadium and listening to the reception they gave her when she won.
"There's not much to do in Russia and they are so authoritarian," she said.
"Sue Cook and I were ushered out of Red Square because we were wearing shorts. It's all right for the men and no one told us we couldn't.go there dressed like that."
She was taking a picture of the tomb of Lenin when a uniformed gentleman blew his whistle grabbed her by the elbow and ushered her away.
"Apparently were were not supposed to get too close to the tomb," she said.
But she would not stand in line for a chance to view the remains of the father of Communist Russia.

Luckily, her baggage was returned two days before she left Moscow.
The Goodwill Games are run every four years to offer athletes a chance to try out against each other under Olympic standards.

The next games will be held in the United States in 1990.
By then, women's walking events may be included in the Commonwealth and Olympic Games.

Until then, Saxby is training for inclusion in the world indoor championships in March, the World Cup in New York next year and the world track championships in Rome.

Flash! Just an hour before heading to the printer, we have results of the 20 Km at the European Championships on August 27: 1. Josef Pribilinec, Czech. $1: 21: 15$ 2.
