

# TRACK & FIELD NEWS

TRACK AND FIELD NEWS, the popular bible of the sport for 24 years, brings you news and features 18 times a year, including twice a month during February-July peak season.

THE EXCITING NEWS of the track scene comes to you as it happens with in-depth coverage of the up-coming 1972 Olympic year.

A WEALTH OF HUMAN INTEREST FEATURES involving your favorite track figures will be found in each issue: This gives you a close look at those who are making the news: how they do it and why, their reactions, comments, and feelings.

DOZENS OF ACTION PHOTOS are contained in each copy, recapturing the thrills of competition and taking you closer still to the happenings on the track.

STATISTICAL STUDIES, U.S. AND WORLD LISTS AND RANKINGS, articles on technique and training, quotable quotes, special columns, and much more lively reading complement the news and the personality and opinion pieces to give the fan more information and material of interest than he'll find anywhere else.

THE COMPREHENSIVE COVERAGE of men's track extends from the preps to the Olympics, indoor and outdoor events, cross country, U.S. and foreign, and other special areas. You'll get all the major news of your favorite sport. Only \$7.00 for one year (18 issues).

We also offer track books, films, tours, pins, and other merchandise. Write for our free Track & Field Market Place catalog.

## Statistical Explanation

And *Age Records* just keeps rolling along. Early in 1970, *Track & Field News* offered a small, four-sided printout of male age bests for youngsters (records in the 15-20 category had been printed on-and-off for years in both *T&FN* and *Track Newsletter*). The response was overwhelming, so in 1971 we brought out the first full volume of all known male age-records. The overwhelming response—not only in terms of sales but also in widespread acclaim—necessitated an updating through the end of the 1971 season. But the tide was not yet spent, and so in 1972 we are proud to present *Age Records III*.

With young age-group and senior's track really booming in the country, and the standard competitive ages showing the natural flow of progress, every year sees a large turnover in nearly every category. Few marks remain which were printed in the original 1971 edition, as new performances and now-verified older ones have supplanted what went before.

This edition of *Age Records* is the largest yet, being expanded to 52 pages as the entries keep coming. The tally of different events is now raised to 44 (and in the future there may be even more).

Although the records in the younger and older divisions (1-14, 34-up) were somewhat inexact listings at one time, we feel that the amount of work done in these areas since the publication of the first *Age Records* has produced a set of marks which are probably almost as definitive and accurate as those marks listed in the 15-35 range, for which information is usually easy to come by. The caliber of officiating and regulation of competition is probably still somewhat stiffer in that middle group, as the two extreme ends of the scale are usually contested under looser conditions. Indeed, nearly all marks for those under 8 were probably set up by eager parents and friends under non-competitive situations.

The compilations are all based on actual birthdate, not birthyear, which is the common denominator for most age-group competition and International Junior definitions. Thus, some of our records here may be made by an athlete in an age which belongs in a different broad category, depending on when he was born (e.g., it is possible for an athlete to compete in the senior's [over-40] category if he turns 40 during the year, so he might record an age-39 mark early in the year while in a 40-45 category competition. If a mark is submitted from a broad age-group (10-11, or 11-12, etc), without supporting birthdate data, the mark is lumped into the older age until the exact information is obtained.

In theory, every mark accepted as a record is on the basis of actual birthdate; in practice, there are a few exceptions, when the information supplied gave sufficient reason to suggest that the athlete was the exact age indicated, or at least he was not included in an easier category (e.g., younger athletes are put in the older category, seniors are placed in a younger).

In this edition of *Age Records* we have eliminated the marks which used to be denoted with a "c". These were marks reported to us as being for a certain age, but were missing much essential information. We continue with the "p" (pending) classification, but in a much-reduced state. This is reserved for marks which are almost certainly legitimate but still require full verification.

Indoor marks are carried if they are superior to outdoor marks, but the best outdoor performances are also listed. In the 200m/220y, 440y, 800m/880y and 400mIH/440yIH lists, the best mark of the two distances (using standard conversion factors of .1, .3, .7 and .3 to determine value) is listed first as the age record. And in order to accommodate yard-oriented US readers, we also list the yard best if the actual best mark was made a metric distance.

Abbreviations: \* = non-US athlete; <sup>o</sup> = mark recorded en route to longer distance; dec = mark recorded in decathlon; pen = mark recorded in pentathlon; h = heat; qf = quarterfinal; sf = semifinal; n = non-winning time; m = metric mark (not converted).

## Submission of Marks

The compilers wish to strongly encourage all readers of *Age Records* to submit all amendments and new marks for the list (all quality performances are of interest, as there is the possibility of the compilation of deep yearly and all-time lists). To submit a mark: Please provide all information possible, including event (with specifics such as weight for different implements or height of hurdles), mark, name of athlete with his birthdate and city and state of residence, site, date and place of competition. For decathlons and pentathlons, the specifications for implements must be included. No special form is required, although a corroborating signature from a witness (other than the athlete and his parents or coach) is desired. Beginning with age-8, marks must be recorded in legitimate competitions, not in time trials or practice sessions.

Send all appropriate information to *Age Records*, Track & Field News, Box 296, Los Altos, Calif. 94022 USA. We regret that we are unable to answer numerous requests about record information during the course of the year. We tabulate the season's results only at the end of the year, then publish *Age Records*, which must stand as the only source of information.
