# Pawlik, O'Connor Named Best 2005 T&F Athletes Ayala-Troncoso, DeReuck, Hussein Top LDR Picks

## T&F Honors Go to Donley, Larsen, Lewis, Vaill, and Pashkin

Emil Pawlik, 66, Gleukos Masters Athlete of the Year, and Nadine O'Connor, 63, were selected as the Outstanding Male and Female Masters for 2005 by the Masters T&F Committee of USA Track & Field, the governing body for athletics in the U.S., at its annual meeting in Jacksonville, Fla., Nov. 30-Dec. 4.

They were recognized along with other award winners at the Awards Breakfast Buffet on Saturday, Dec. 3, at the Grand Ballroom of the Hyatt Regency Jacksonville Riverfront.

Pawlik, Jackson, Miss., won 10 national championships (high jump, long jump, short hurdles, and pentathlon in both indoor and outdoor championships; indoor heptathlon; and decathlon, with a world record), and the decathlon (another world record) and 100m hurdles in the WMA World Championships in Spain. His indoor

Adding awards to his list of championships, he also received the 2005 Outstanding Combined-Events Award and was selected M65 Track Athlete of the Year. He won the Outstanding Combined-Events Award in 1999, 2000, 2002, 2003, and 2004.

O'Connor, Del Rey, Calif., won five national championships: 200 indoor (world record 29.51, an age-graded 95.9%); pole vault indoor (world record 2.90); and 100, 200 and pole vault outdoor (world record 3.00). She subsequently set another pole vault record of 3.10, an age-graded 99.1%. She was also the W60 Field Athlete

of the Year. In 2004, she was awarded the Outstanding Single Performance Continued on page 4

Carmen Ayala-Troncoso, 46, Colleen DeReuck, 41, and Mbarak Hussein, 40, were among the 24 runners honored by the Masters Long Distance Running Committee of USA Track & Field at its 27th annual meeting in Jacksonville, Fla.

The Athletes of the Year for the class of 2005 were distinguished by being among the most prolific U.S. record-setters of any class. They were headed by repeat winner DeReuck, W40, of Colorado, who established new marks in the Gate River 15K, New Haven 20K, Fifth Third River Bank 25K, and La Salle Bank Marathon in Chicago. She also won the Masters 10K Championships at Heritage Oaks, Paso Robles, Calif.

Following close behind, after a four-year hiatus from the awards list, was Toshiko d'Elia, W75, New Jersey, who set new standards in the 5K at the d'Elia Ridgewood Run, the 15K at the Utica Boilermaker, and the 20K at New Haven. She also won the Masters 5K Championship at Freihofer's.

Hussein, of New Mexico, was one of a number of winners who established two new standards. He set marks in the Philadelphia Distance Run Half-Marathon and the Fifth Third River Bank 25K. He also won the masters championships at the Twin Cities Marathon.

Carmen Ayala-Troncoso, W45, Texas, returning after an absence of six years, established marks in the NYRR 8000 and the Rodeo Run 10K, as well as winning the Masters 5K Championships.

John Keston, M80, Oregon, after an absence of three years, set marks at the Lilac Bloomsday 12K and Earth Day Half-Marathon. Barbara Miller, W65, Calif., repeat winner of the award, set records at the Rocklin Run 12K and HP Houston Marathon, as well as winning her division in the Masters 10K Championships.

Single-record setters were returning Continued on page 8

### 2006 NATIONAL MASTERS INDOOR **TRACK & FIELD CHAMPIONSHIPS Reggie Lewis Track and Athletic Center** Boston, Massachusetts March 24 - 26, 2006

Presented by USA Track & Field - New England

#### FACILITY/IMPLEMENTS

Six-lane, lightly banked 200 meter Mondo Track, nine lane straightaway. Use of starting blocks is restricted to those provided by the facility for the straight sprints/hurdles; personal blocks may be used on the 200m oval

All shoes will be checked, with only 1/4" pyramid spikes or flats permitted, no hexagonal elements. Acceptable spikes will be available at the meet.

There will be one weight and two shot circles, throwing onto a synthetic surface. Only certified soft-shell shot puts and bag weight implements will be allowed for the indoor competitions. Superweight (men 30-69) may be contested outdoors.

Starting heights will be determined by facility equipment limitations and by the Games Committee. Minimum High Jump height will be 2 feet 8 inches; minimum Pole Vault height will be approx. 4 feet. Pole vaulters should bring their own poles

#### COMPETITION ORDER

For track events the order is women followed by men, oldest to youngest. Age groups may be combined to fill sections. If the number of entrants in an age group does not exceed the number of available lanes, preliminary rounds of the 60 meters, 60 meter hurdles, and 200 meters will be eliminated; finals only will be run as scheduled. The Championships will not be delayed for any reason. NOTE: field event starting times may need to be adjusted due to the number of entrants.

#### DECLARATIONS

All track athletes, after picking up their number, must check in at the clerks' table prior to their event. Declarations must be completed no less than one hour before the listed starting time for the event. No exceptions! The final seeding will then be done and sections will be drawn.

Field event competitors must check in with the officials at their field event area. Any athlete who has not checked in prior to the first attempt will not be allowed to enter the competition.

#### ELIGIBILITY

Competition is open to all men and women 30 years of age and older, including non-US citizens. Individuals will compete in five-year age groups, relays in 10-year age groups. The meet will be run in accordance with USATF Competition Rules and Regulations. A 2006 USATF membership will be required for all US residents and card must be shown at number pick-up. Membership may be obtained on-line at www.usatf.org, through local associations, or on-site at the meet for \$20.

#### ENTRY

Early entry deadline is Monday, March 13, 2006. Entry fee is \$35 for the first event, \$18 for the second and \$15 for each additional event. Entry fee for the Pentathion is \$65 (the pentathion does count as a first event). After March 13 a late fee of \$12 per event will be charged. Late entries, additions and/or changes must be received by Monday, March 20, 2006. Relay registration will take place on-site only at \$20 per team. Admission to

the facility is free for competitors and guests. Final instructions will be posted on March 1<sup>st</sup> at www.usatfne.org/masters.

#### AWARDS

USATF Championship medals will be awarded to the top three places in each age group of each event final. Foreign athletes will receive a duplicate award. Championship patches will be presented to winners of individual events, with a limit of one patch per participant.

#### HEADQUARTERS HOTEL

Headquarters hotel is The Marriott Copley Place Boston, 110 Huntington Avenue, Boston - \$129 single/double and \$139 triple occupancy, 1-888-236-2427 or 1-617-236-5800. To get the special rates reservations must be made by March 13, 2006; mention the National Masters Championships at the time of making your reservation.

## T&F Awards

### Continued from page 1

Award (W60 pole vault world record of 3.05).

The Outstanding Single-Performance awards went to Mel Larsen, M80, Ames, Iowa, and Oneithea Lewis, W45, New York City.

Larsen broke the M80 world record for the 80m hurdles with a 14.75 in the 16th WMA World Championships in Spain.

Lewis set the W45 world record for the weight pentathlon with a 5414 total in the USA National Championships in Texas.

Christel Donley, W70, along with Pawlik, was named Outstanding Combined-Events Athlete. Donley, Colorado Springs, Colo., won the W70 indoor heptathlon, indoor pentathlon and outdoor heptathlon.

Pawlik, in addition to a world record performance (7900) win in the WMA Championships, was the M65 champion in the indoor heptathlon and pentathlon and the outdoor pentathlon and decathlon.

Three athletes won both the track and the field age-group awards: Jim Stookey in the M75 group, Kathy Bergen, W65, and Ethel Lehmann, W75.

Several other athletes were multiple-award winners. Carmen Ayala-Troncoso, of Texas, the LDR Cross-Country Athlete of the Year, is also the W45 Track Athlete of the Year.

Kathy Martin, W50, of New York, the 2004 Masters Athlete of the Year; Marie-Louise Michelsohn, W60, of New York; and John Keston, from Oregon, are all LDR and Track Runners of the Year.

Teresa Vaill, W40, Pine Plains, N.Y., Ray Sharpe, M45, Louisville, Ky., and Paul Johnson, M65, Venice, Fla., were voted Outstanding Racewalkers. Vaill, a 2004 Olympic racewalker, was undefeated in every race. She was also the Open Racewalking Outstanding Award winner.

Sharpe won the 10K national championships and set masters age records in winning open national championships. Johnson won every national title except the indoor 3000 and was third in the 5000 at the WMA Championships.

Among the age-group racewalking award winners were Elton Richardson, W65, Claire Elkins, W75, and Miriam Gordon, W80, all gold medalists in the 16th WMA World Championships in Spain.

Sandy Pashkin, Eugene, Ore., was selected as the Masters T&F Administrator of the Year. Pashkin served as the Championships Games Committee Chair, the Masters T&F Records Coordinator, on several committees, and as a WMA delegate. She was given the same honor in 1995.

Other individuals associated with masters received other honors. The 2005 President's Award Winners named at the Opening Session included Jo Ann Grissom, W65, a two-time Olympian, USATF official, and holder of multiple indoor and outdoor U.S. masters shot put records.

Bob Langenbach was honored with the John R. Davis Memorial Award, given by the Officials Committee. Langenbach is a long-time official in the Seattle area on the national level.

Norm Green, Masters LDR Committee Chair, received the Horace Crow, Jr., Award.

Kip Janvrin, who broke the M40 decathlon world record in the 16th WMA World Championships was awarded the John Bennett Decathlon Contributors Award.

## **Jacksonville Business**

A smost of you know, the USATF Annual Meeting is where we conduct a major portion of our business for the year. This year in Jacksonville, Fla., your delegates and officers worked very hard to represent the best interests of USATF Masters Track & Field members. This included over 16 hours of strictly Masters Track & Field meetings, a two-hour joint meeting with LDR members, six-seven hours of executive committee meetings, six hours of regional coordinator meetings, eight hours of Board of Directors meetings, six-plus hours of the Awards Committee, plus other committee meetings, four hours of the General Competition Division of which Masters T&F is a part, and another five hours of General Meetings of the all USATF delegates.

The minutes and reporting in National Masters News will give you many details you may, or may not, wish to know. Thank you to all who contributed their time and talents. Following are my comments on what I believe were the most significant matters.

#### Restructuring

This might have been the most controversial issue brought forth at the meeting. This is not a new subject, but has come up on the radar screen because of amendments that were proposed to our Law and Legislation Committee this year.

There were three that dealt with the downsizing of the USATF Board of Directors. They all proposed a much smaller Board, around nine members or so, that probably wouldn't include a seat for Masters Track & Field. This is, of course, most disturbing to our membership. Also, the exclusion of the word Masters (the word "All" doesn't seem to make it with our members) in the new USATF mission statement. The reference to the support of the professional athlete didn't go over very well either.

The downsizing of the Board is in direct relation to the wishes of the USOC to have the Federations make their Boards similar to the USOC's. Besides the small number of members, it is not constituency based. This would be a big change for the USATF Board, which is constituency based.

We must not overreact and/or be hasty in any reaction to these "proposed" changes. We still have another year before anything would be done, and it couldn't take effect until after 2008, according to Bill Roe, USATF president. The Masters Track & Field Executive Committee has asked me to establish an ad hoc committee to study this situation and look at all our options. This is already under way. USATF Membership Fee Increase

This was really a hot topic. Much lobbying and testimony was introduced at the General Competition committee by all sides. The Youth Committee took a very provocative stance on not increasing the membership fees. There was a significant sense that the adult members could stand an increase.

Several members of the Associations Committee felt that an increase would reduce membership, and convinced Allen Roth to do a study on the effect of an increase on membership. I believe that is an impossible task and that the increase will not have any effect on membership. If USATF membership isn't worth \$30 a year, then we aren't much of an organization.

The Masters Track & Field Committee voted to support a \$10 a year increase in membership fees, from \$20 to \$30. The major concern we have is in how the incremental dollars are applied to our committee. The USATF National Office put out a discussion draft on this called Membership Restructuring. There is some very important information in this document, which is to be used as a baseline starting point for negotiation.

The bottom line is that the Masters Track & Field Committee wants a higher share of the increment so we can realize the plans laid out in our Strategic Plan.

The discussion draft asked for input on the subject to bill.roe@usatf.org and/or Karen Krasak at n2track@aol.com, and I would appreciate a copy also to george.

George Mathews shared the M60 Field Athlete of the Year Award with Matti Kilpelainen.

mathews@adelphia.net. The decision will be made by the USATF Board of Directors and won't take effect until 2007 at the earliest.

#### **Age-Group Change**

USATF Masters Track & Field (including racewalking) now goes down to age 35 for men and women.

This was a very hard fought rule change to comply with the IAAF/WMA change. Apparently, Masters LDR has some commitments for future races which would be impacted by this rule change.

Finally, after many appeals, Masters LDR was given until 2010 or 2011 to comply. Masters Track & Field, including masters racewalking, starts at 35 years of age beginning in 2006.

These are just a few of the many important matters dealt with. After reviewing the official and unofficial minutes, if you see something you want to comment on, please feel free to contact me.

Thanks for a great 2005. Happy Holidays, and a faster, higher and longer 2006.  $\Box$

## Is a 30-foot Long Jump Pure Twaddle?

66 Tnever said it was possible, I only said it was true." - Sir William Crookes Imagine yourself a track and field official judging the long jump competi-L tion. A competitor walks up to the take-off board and stands stationary on it for several seconds while balancing on one foot. He appears to go into a trance, then rises a foot or two into the air, floats 30 feet or more and gently touches down at the end of the pit. Would it be a legal "jump"? Would it be a new world record? If not, why not?

"Ridiculous!" you say. Perhaps not. While Daniel Dunglas Home (pronounced "Hume" or "Hoom"), who was born in Scotland in 1833 and raised in Troy, New York, may not have performed such a feat in the athletic arena, he was observed levitating and floating through the air by a number of credible people, including one of the world's leading scientists.

His most famous levitation is said to have taken place on December 16, 1868, on the third floor of Ashley House, the London mansion of Lord Lindsay. It was witnessed by Lord Lindsay, Lord Adare, and Captain Charles Wynne.

#### On the Outside Looking In

After the three men and Home were seated, Home slumped in his chair and went into a trance. He then got up and walked out of the room. The three men apparently didn't know what to make of the departure and remained seated. They then heard the sound of a window in the adjoining room being raised. They looked out the window in their room and saw Home standing on air, three stories above the ground. Home then floated to the closed window out of which they were looking, opened it, stepped into the room, went to his chair, and sat down, still in a trance state.

As the three men questioned what they had seen and wondered how Home got out the window in the adjoining room, which was open only a foot or so, Home got up from his chair, walked to the other room, went through the open space, head first, and then floated back in the same window, feet first.

On March 4, 1869, Adare, Wynne, and Adare's father, the Earl of Dunraven, accompanied Home on a tour of the ruins of Adare Abbey. There they observed Home leave the ground and float horizontally for, according to Adare, "at least ten or twelve yards." (The first 30-foot long jump?)

#### **Balderdash!**

Most who heard the stories dismissed it as so much humbug, suggesting that Home was either a magician or hypnotist, or that the witnesses had had too much to drink. However, there were so many other stories about Home that Sir William Crookes, one of England's most distinguished scientists, decided to investigate him.

A Fellow of the Royal Society, Crookes studied and taught at the Royal College of Chemistry before becoming a meteorologist at the Radcliffe Observatory, Oxford. In 1861, he discovered the element thalli-

um, and later invented the radiometer. the spinthariscope, and the Crookes tube, a high-vacuum tube which contributed to the discovery of the X-ray. He was founder and editor of Chemical News and later served as editor of the Quarterly Journal of Science.

Scientific Investigation

Knighted in 1897 for his many contributions to science, Crookes was not someone to be easily duped, as he assumed was the case with those people reporting on Home's levitations and other strange phenomena coming from him. In fact, Crookes undertook his investigation intent on demonstrating fraud.

He opined that the increased employment of scientific methods would drive such stories into the unknown limbo of magic and necromancy.

But upon closely observing and studying Home, Crookes changed his views. "The most striking cases of levitation which I have witnessed have been with Mr. Home," Crookes wrote after 28 "sittings" with Home over a two-year period (1870-71), stating that he saw Home levitated on three different occasions, and that there were at least a hundred recorded instances of Home rising from the ground in the presence of many credible witnesses.

In one of the levitations, Crookes passed his hands under Home's feet and over his head to rule out any kind of invisible wires, as was suggested by some of Crookes' scientific colleagues.

**Unseen Forces** 

Crookes referred to Home "being levitated" rather than Home having the ability to levitate himself, as Home claimed his "spirit controls" were lifting him. In fact, when levitating in the upright position, Home's arms were usually rigid and drawn above his head, as if he were grasping the unseen power raising him from the floor. When he went horizontal, it was as if invisible hands were supporting his body.

In addition to levitations, Crookes and his guests witnessed floating tables, luminous "spirit hands," and beautiful music coming from an accordion floating in the air, while also hear-ing the spirit voices. In one sitting, Ellen Crookes, Sir William's wife, was levitated while sitting in a chair. All of it took place in clear light.

Crookes asked the communicating spirits why there was so much tomfoolery and they explained that they had just learned how to produce such phenomena and were experimenting on their side just as Crookes was on his side. Voices were sometimes heard in which one invisible being seemed to be instructing another invisible being on how to effect the levitation.

## **Distinguished Defenders**

Many affluent and distinguished people were among the observers at the Crookes home, including Dr. Alfred Russel Wallace, co-originator with Charles Darwin of the natural selection theory of evolution. (In fact, the "survival of the fittest" concept came from Wallace, not Darwin.)

On one occasion, Wallace and Crookes, two of the world's most famous scientists, were crawling around on their hands and knees under a levitating table searching for some

kind of physical explanation. In his book, *Perspectives in Psychical Research*, Wallace, defended Crookes against attacks by other scientists who had concluded that Home was a magician and that Crookes had been duped.

Brewster, sat with Home and saw a table levitate right in front of him, but still concluded that since there was no natural explanation for what he saw that Home had to be a magician. Brewster scoffed at the idea that spirits played a part in it and saw no other explanation beyond sleight of hand that was beyond his understanding.

"To reject the recorded evidence on this subject is to reject all human testimony whatever; for no fact in sacred or profane history is supported by a stronger array of proofs," Crookes wrote, stating that he took every possible precaution to rule out fraud.

### Demonic Influences

Scientific fundamentalists were not the only scoffers. Religious fundamentalists joined in, calling it demonic. The Rev. William Stainton Moses, a minister of the Church of England and English Master at University College, called the reports on Home the "dreariest twaddle" he had ever come across.

Not long after making that statement, Moses found himself being levitated. His levitations were also witnessed by credible people, including his best friend, Dr. Stanhope Templeman Speer, who had earlier referred to such phenomena as "stuff and nonsense."

Sir William Barrett, professor of

physics at Royal College of Science in Dublin and a pioneer in the commercial development of the telephone and transformers, also investigated similar phenomena and reported observing a heavy table being levitated some 18 inches off the ground.

He climbed on the table and sat on it to try to force it back to the floor, but the table "swayed to and fro" with Barrett on it until he fell off. The table then inverted itself on the floor and Barrett found that he could not budge it. When Barrett ceased his effort, the table righted itself on "its" own accord. All the while, Barrett could hear an "amused intelligence."

Sir Oliver Lodge, a distinguished British physicist and pioneer in electricity and radio, observed and verified similar phenomena in his investigation of the paranormal. So did Dr. Charles Richet, a Nobel Prize winner in medicine

#### **Athletic Applications**

So if such things are possible, why haven't we seen them in the athletic arena? Why doesn't some modern day D.D. Home long "jump" 30 or 40 feet or perhaps high jump 10 feet? The answer to this question may have been explained by Home, as he came to understand it from his "spirit controls."

As Home told Crookes and others, he could perform only when both his mind and those of the people around him achieved a certain harmony. If there was too much doubt, there was no power. When ego or material gain was the objective, the power left him. (Home considered it an insult if anyone offered to pay him). Negative Vibes

When the "vibes" were essentially negative, nothing happened. One such day was May 28, 1873, Derby Day in London. Home was told by his spirits that the moral atmosphere was so negatively charged from all the gambling and drunkenness that no phenomenon of any kind could be generated.

Considering the moral atmosphere in the world today, it seems safe to say that we won't be seeing any superhuman world records produced in the immediate future.

## **Big Winds at Big Bird Runs**

## By RON MARINUCCI

ROSEVILLE, Mich., Nov. 13 - On a blustery day - high wind advisories with gusts reaching 40-45 mph - 751 registered runners met for the 27th annual Big Bird Runs in this suburb just north of Detroit. Of these, 322 were masters runners.

Numbers were down from one of southeast Michigan's most popular races. Race director Tony Lipinski surmised, "I believe that the weather reports about rain and high winds kept people away."

The forecast rain was nowhere to be seen, but the wind showed up - big time! Fortunately, Lipinski said nothing about any runners being blown off the pedestrian overpass on the course that crosses I-696 twice.

But the day was dry, mostly sunny, and unseasonably warm, with tempera-tures hovering near 60 degrees. Considering past Big Birds with snow, sleet, rain, and even stronger winds, veteran runners could joke, "It's the Big Bird. What did you expect?"

There were three races - mile, 4K, 10K - all with flat courses except for the overpasses in the marquee 10K. Race starts were staggered so one-milers could also run either the 4K or 10K, which a few masters did.

A comparative glance at results from recent Big Birds showed the wind had a negative effect on most times, by as much as one to three minutes in the 10K.

LIFESCIENCES"

Masters runner Todd Kelly, 44, was third in the mile (5:12), returning to pace all masters again in the 4K, with a 13:52, good for fourth overall.

A new arrival to the masters division, Paul Aufdemberge served notice that he'll be a force in the future. Considering the wind - "It was bad out there; we had to run together" - his 32:15 (age-graded 31:00) was even more impressive. It was good for second overall by a mere nine seconds. Tim Emmett, 59, ran a 37:49.

Cathy Dean, 49, paced the masters women in 44:51, while Ellen Nitz, 65, finished in 53:44 (AG 40:20).

Joe Thornburg, 89, continued his impressive string of finishes, winning the M85 division in 1:30:55. Eightyfour-year-old James Lovat's 1:11:03 was good enough to win his age-group.

The M60 division attracted attention with some remarkable times, considering the wind and a spill that affected the runners.

Doug Goodhue, 63, was the grandmasters champion in 38:14 (30:34), exactly what he posted in 2004. He was chased by Gerard Malaczynski, 63, who finished in 38:27 (30:46). Jim Carlton, 62, ran a 40:20 (32:34), and Das Campbell (60) was right after that in 40:45 (33:56). Whew!

Of course, what would the Big Bird be without Darrell McKee, who has run all 27 Big Birds? Afterward, he said hoarsely, "I'm really sick. Any other hoarsely, race I wouldn't have run. It's still the

big race." He added, "but it was awful windy." He noted that Russ LaBarge "also finished. He's run 'em all, too."

McKee, who's 71, praised race director Lipinski. "Tony does a great job, really a remarkable job with agegroups.' Age-group awards went up to 85-89,

5K XC, Syosset, N.Y with three to five given out per catego-

McKee said it's great that the Big Bird recognizes the older runners.

You still give it all you got. And we're [the old guys!] still out there [racing]."

PAGLIANO'S PODIATRIC POINTERS The Foot Beat By JOHN W. PAGLIANO, D.P.M.

## Sports Massage - Is it Therapeutic?

ollowing is a topic I'm sure most of us don't want to question. Is sports massage after exercise therapeutic? Does it do us any good? Jonhague and asso-ciates at the Section of Sports Orthopedic Surgery, Stockholm, Sweden, studied 16 athletes in an effort to answer this question.

Each athlete underwent eccentric contractions of the quadriceps muscle. Massage was performed on one leg while the other leg served as a control. Functional tests on a dynamometer were performed as a visual analog to record pain.

Results showed no effect of massage on muscular performance. In other words, the researchers did not find that sports massage of the quadriceps muscle had any effect on local recovery after exercise. Nor did they find any effect on pain or soreness that normally follows this kind of exercise. Since this was a small study, I think we

can continue with sports massage in case a larger study shows that it does some good!

## Men's Title Goes Down to the Wire

## **Club NW, Team Runners High Winners** in National Cross-Country Championships

By BILL QUINLISK

ROCHESTER, N.Y. - The USATF National Club Cross-Country Championships moved to the East Coast this year as the Genesee Valley Harriers Running Club hosted the event on a dry, sunny, 45° cool day on Nov. 26.

Billed as the "Feast in the East," this year's event featured a field of over 900 runners including 300+ masters athletes. With 49 complete masters teams, this year's event was the largest ever in terms of the number of scoring teams. Masters men ran 10K, with the masters women going 6K on the 2000m loop course at Genesee Valley Park.

In the women's race, Carmen Ayala-Troncoso, Austin, Texas, took command of the course from the gun, winning overall in 21:44, and claiming the W45 title.

According to Ayala-Troncoso, "Win-ning doesn't get old, but it gets harder and harder. It was windy, but it was a beautiful day. I think I ran the first half a little too fast because I wanted to warm up. I was doubting myself between two and four kilometers, but it turned out okay. I'm ecstatic to win another national title." She was also the age-graded women's champion with her winning time equating to an 89.7%.

Other women's national age-group titles were won by Karen Steen, W40; Cathy Utzschneider, W50; Carolyn Smith-Hanna, W55; Mary Shaver, W60; Carrie Parsi, W65; and Mary Harada, W70.

Seattle's Club Northwest, led by Regina Joyce's second-overall finish, packed four runners in the top eight to successfully defend its W40-49 team title, defeating the host Genesee Valley Harriers, 11 points to 26. The Genesee Valley Harriers won team titles in the W50-59 and W60-69 divisions.

The masters men's race saw Pete Magill, South Pasadena, Calif.; 1984 Olympic marathoner John Tuttle, Atlanta, Ga.; and Scott Bagley, Pittsford, N.Y., in a fierce battle over the last 100 meters, with Magill emerging victorious with a lean at the tape over Bagley in the identical time of 32:46.

January 2006

Tuttle's 32:49 was good for the M45 national title and was the age-graded best (91.3%). The finish was so close that a Lynx camera was used to call the victor.

After the race, Magill said, "Last year in Portland, I tripped in the middle of the race and had to fight just to get third. When I hit that last stretch with Tuttle and Bagley, I thought, I'm not going to wait another year to do this, I'm going to give everything I've got to

get it this year. "I didn't know over the last 20 yards whether I was going to win the race or fall on my face. Every third step, I felt that my legs were about to give out on me. Scott's team (host Genesee Valley Harriers) and my team (Team Runner's High) are in a heck of a battle right now. This is the club championships, and that's what it's all about.

Additional men's national age-group titles were won by Tom Ryan, M50; Terry McCluskey, M55; Terry Delph, M60; Bill Borla, M65; Ray Parrella, M70; and Richard Sullivan, M75. Team Runner's High from the Southern California Association won the M40-49 title

Age-group team winners were Derby City AC, M50-59; Raritan Valley, N.J., M60-69; and Belle Watling, N.Y., M70+.

The 2006 Club Cross-Country Championships will be held Dec. 9 in San Francisco, Calif., at Golden Gate Park. O

## Mountain, Ultra, Trail Honors **Masters at USATF Annual Convention**

The USATF MUT (Mountain, Ultra, Trail) Council Awards were presented on Dec. 3 at the USATF annual meeting breakfast banquet. Masters Mountain Runners of the Year are Bernie Boettcher and Lisa Goldsmith. Masters Ultrarunners of the Year are William Emerson and Tania Pacev.

Boettcher, 43, Silt, Colo., was second masters runner in the USATF Trail Championships and the top American at the Masters World Mountain Running Championships in Keswick, England, in September, where he finished 20th M40 (26th overall in the world against all masters).

He was the Trail Runner Trophy Series Masters Champion in 2004 and showed his prowess in snowshoe racing as the top master at the North American Snowshoe Championships, placing third overall.

Boettcher says of his involvement in mountain and trail running, "I believe my relentless promotion of the sport has inspired others to run more. I've tried to do it through example.'

Boettcher is a columnist for Trail Runner magazine and an accomplished artist working in media as diverse as sculpture and oil painting. He designs all of the Teva Vail Mountain Trail Running series T-shirts. Boettcher spends time running near the trails and open space surrounding his home with his girlfriend, Jeanne Blatter.

Lisa Goldsmith, 41, Nederland,

Colo., had a stellar year in 2005. She started the year with a win at the Maui Run to the Sun (her first ultramarathon), following up with a win at the Pikes Peak Ascent and second place (first master) at the Barr Trail Mountain Race.

Goldsmith was the first master at the USATF 10K Trail Championships, the Northfield Mountain Race, and the Teva Vail Hill Climb. Her successful season extends from races to hosting numerous clinics in support of the sport. She is a licensed massage therapist.

William Emerson, 41, Portland, Ore., is a repeat winner of this award, having earned masters honors in 2004.

Emerson posted many top finishes in 2004-2005, including wins at the Ron Herzog 50K, the Hunter S. Thompson 50K, the Hilo to Volcano 50K, and the Quad Dipsea 28 Miler.

He was fourth overall and first master at the McDonald Forest 50K, second overall and first master at the Siskiyou Outback 50K, and second overall at the USATF 50 Mile Trail Championships White River 50, and masters national champion. He finished third overall and was masters champion at the USATF 50K National Trail Championships.

Emerson serves on the USATF MUT Council.

Pacev, 46, Littleton, Colo., finished ninth in the world at the IAU World

Steve Forman, first M65 (21:08), PVI Funfest 5K, Fairfax, Va.

Cup 100K in Lake Saroma, Japan, with an 8:29:19 and, along with her teammates, won the gold medal in team competition.

With her top-10 finish, Pacev was named to the 2006 100K World Team. slated to compete in South Korea in October 2006. She is the winner of the Trail Runner Trophy Series Marathon & Shorter Division.

She was top master at the Leadville

## **Racewalkers Recount Experiences at Championships – Part IV**

s most of you know, August was the month of the Nationals in Honolulu, Hawaii, and the World Championships in San Sebastian, Spain. This, the fourth column in a series, reflects more comments received from those attend-ing these races. The USA medal count at the World Championships: 8 gold, 7 silver and 5 bronze individual medals; 5 gold, 1 silver and 2 bronze team medals. -ew

John Backlund, M65. Nationals: 5K, 1st, 30:47.25; 10K, 1:05:04. Worlds: 5K, 16th, 31:20.28; 20K, 11th, 2:09:54 (bronze medal 20K team -Backlund 2:09:54; Ted Moore 2:13:54, Bernie Finch 2:32:03, total 6:55:51 -ew)

I would not return to Hawaii for a racewalk. The organization was poor, although it did improve later in the meet. Spain was great. I started train-ing for the world 20K in January. I knew my chance in the 5K for a medal was a non-starter. I did a lot of distance work and switched over to more speed work in July. I ended up by injuring myself three weeks before the National Championships and walked very little before Hawaii.

As my 5K time in Hawaii wasn't so good, I was concerned about the 5K in Spain. There were 30 of us on the track and I did not feel ready when the race started

I did feel ready for the 20K. We had chips, but it was the gun time that counted. So I got in the front row even though I worried about being run over, as I like to start slow. Not a problem. **Team Medal** 

I had a good effort and received my

first medal, a team bronze. Made it worth all the time and effort.

Except for the inconsistent judging, the World Championships in Donostia-San Sebastian was well run. Everything was on time and everyone knew what to expect. The facilities were much better than Puerto Rico (my only other world championships).

The road course was well marked, but had varying, uneven surfaces which caused some to fall. Darlene (Backlund) and I would definitely go back to San Sebastian, and if they bid again, I would support their efforts.

Darlene Backlund, W55 & W60 Nationals, W55: 5K, 3rd, 34:34.93; 10K, 3rd, 1:12:43; Worlds, W60: 5K, 13th, 34:28.21; 10K, 15th, 1:11:07.

I can sum up the World Masters Championship in Spain in two words: "Absolutely fantastic!"

Super Venue

The venue was superb, and with the two stadiums so close together, it was easy to watch different events. The weather in Spain was much more conducive to racing than the high humidity in Hawaii, and the games were very well organized.

We stayed in Old Town in San

Sebastian where the activity continues

were having photos taken of the USA women, it was impressive to see how many women from other countries wanted their picture taken with us.

Then, being at the start line with about 160 women gave me goose bumps due to the excitement. I could not have hoped for a better ending. **Golden Achievement** 

I managed to be the third USA woman in my age group which was my goal. Jolene Steigerwalt, Kathy Frable and I were sure we had a medal, but didn't know which one. When I learned we had gold, I cried due to the ecstatic feeling it gave me. I definitely like the feeling of being on a team and appreciate being a member with two women I highly respect.

Besides receiving a gold medal and standing on the podium, the thing I will remember most is the opening ceremonies. To walk into the stadium to the sound of the huge cheering crowd was overwhelming. I could just imagine how our Olympic athletes must feel.

In Favor of Uniforms When filling out the application for Spain, I was extremely pleased to see that we were required to purchase a singlet so that all USA participants would have the same uniform. My only other experience of world competition was in Puerto Rico, where I thought the USA team looked really poor since we didn't have matching uniforms.

I purchased the shorts to match the

It seems that the USA Masters Track & Field organization should be able to come up with a masters uniform that would stay the same year after year. I admit feeling embarrassed about how the USA looked.

## **Masters T&F Awards Committee Report**

#### By PHIL BYRNE Chair, Masters T&F Awards Committee

The Masters Track & Field Awards Committee met this year at the USATF Annual Meeting. The winners' names were posted on the Internet shortly after they were announced, and further details are provided in an accompanying article. Thus, this seems like an appropriate time to review again the policies and procedures that we follow in selecting the winners.

Eligible athletes are U.S. citizens age-30-and-over competing as masters in at least one masters meet or in the masters event of all-comers meets.

We then look at all the performance marks for those athletes. We look at all U.S meets that we believe are well run (properly timed, measured, etc.), as well as major masters meets conducted outside the U.S., such as the WMA World Championships and the World Masters Games.

We are looking at track meets, not road racing, and do not include relays, since an individual athlete's performance there is generally not reported. We include performance in preliminary heats, when reported and helpful to the athlete.

We are aware that some marks may have been wind-aided and would not qualify for a record, and count on the knowledge of the committee to advise us of such factors so that we can treat the mark appropriately.

The basic source of the data base we compile is the Rankings data base compiled by Dave Clingan and Larry Patz. Therefore, we use marks for the current year only.

That information is re-worked into a file for Awards Committee use, and is pruned down to include the best marks for the top four to eight athletes in each five-year age group for men and women in track and in field.

The file is also compared to the Records Committee report on approved records, so that our file has annotation of both approved records and conditional "records" that have not (yet) been approved.

We include information on both one-year and five-year age-graded perfomances using the new 2002 standards. We include performance data to the beginning of the meeting, but that means marks achieved in December are not counted. We are not aware of any cases where such a mark would have changed a decision.

Considerable time and effort is spent confirming any marks that appear erroneous, and confirming the age and citizenship of potential winners. We also welcome nominations for and from anyone, but that is not at all necessary.

The Awards Committee of 12-15 people includes a cross-section of athletes from all ages, different parts of the country, and disciplines.

The common denominator is that they are at the Annual Meeting, willing to spend several hours going carefully through the data, and are both knowledgeable and objective.

The proceedings are open to observers, and anyone interested in serving on the committee should contact me (see p. 2).

The factors considered in selecting winners include actual performance, age-graded performance, national and world championships, U.S. and world records, head-to-head competition, range and consistency of performance, quality of competition beaten or records surpassed, etc. No single factor determines a winner.

Different members may have different opinions given the volume of data to be considered, but, in the end, the majority vote wins. In very close cases, a majority in favor of declaring co-winners sometimes emerges, and that is the final decision.

This year, proceedings revealed a few minor errors in some of the early versions of the new (2002) age-grading standards that had been published (and possibly entered into various software programs).

We would urge meet directors and others involved in using these factors to make sure they have the latest, corrected versions.

We understand that people not seeing all the data available to the committee may not understand or agree with the decisions of the committee, but I believe those present are doing their level best to be fair and objective and to reach the best decision.

This year the full Masters Track & Field Committee voted to adopt two new policies to be implemented by the Awards Committee starting in 2006. First, the only meets whose marks will be considered for award purposes will be USATF-sanctioned meets.

The vast majority of well-run meets have been sanctioned in the past, but that decision needs to be made again each year by meet organizers. The principal exceptions to the sanctioning practice have been many of the State Senior Games, and the National Senior Games.

Athletes for whom awards are important may want to ask meet directors whether a meet is sanctioned and/or encourage meet organizers to have the meet sanctioned.

The second change is that only those athletes who are members of USATF will be eligible for these awards. Membership can be obtained at any time during the year by contacting USATF in Indianapolis, IN, at 317-261-0500 or www.usatf.org/member ship.

These policies have been in effect for some time in both Masters Racewalking and Masters LDR, and were overwhelmingly approved in Jacksonville. We recognize they may constitute a problem for a few athletes, but we believe they are appropriate policies for the sport.

I'd like to thank all the people who served on this committee and all those who helped in compiling the data -especially Dave and Larry. It's a lot of work for a lot of people, but we think it's worth the effort.

I'd also like to congratulate all of this year's winners, and wish them and everyone else - continued good health and great results in 2006.

Christel Donley (I) and Audrey Lary share the W70 Field Athlete of the Year Award. Donley is also the Outstanding Female Combined Events Athlete.

Robert Thomas, M35 Track Athlete of the Year.

## **Senior Marathon Training Program**

enior Marathon Training Program: What does that mean? Is the schedule below designed only for older runners? Not necessarily, although if you have been running marathons for a number of years, you may have been searching for a program with relatively low mileage and less of a time commitment that will allow you to continue to race 26-milers without getting burned out. Same if you've followed my novice schedule before and are looking for some variation - particularly a program that will allow you time to do some cross-training.

If you're a Clydesdale, you also may have come to the conclusion that high-mileage weeks raise the risk of injury too much. You need more rest time. Finally, if you like to run a lot of marathons a year (and it's up to you to define "a lot"), you realize it's impossible to fit more than a couple of 18-week build-ups into your schedule and still have time for recovery between.

page 12

If any of the above describes you, this Senior Marathon Training Program may be just what you need. It features only three days running a week, but you get to run a fair amount of distance on each of those days

It features two days of rest a week - and you need your rest, since all of the long runs on the weekend are 12 miles or more.

It features two days that you can use for stretching and strength training or maybe some cycling and swimming, if that's your fancy. You need that too, because you enjoy exercising, even if you've discovered that three days a week running is more than enough to keep you in shape

### The Program

Monday: This is always a good day of the week to rest, particularly if you ran long over the weekend. All of the Mondays in the schedule below are designed as days of rest, but if you want to do some extra stretching and strengthening today, be my guest.

Tuesday: Modifying a term that I use in my other marathon training programs, let's call this our Sorta-Short Day. You're still recovering from your weekend long run, so don't go too far.

I suggest that in Weeks 8, 6, 4 and 2, you run four miles at your marathon pace - or faster. In other words, run short but at a good speed, and I'm not going to define what is a good speed. You being an experienced runner should know how fast you want to run, or if you want to run fast at all.

In Weeks 7, 5, 3 and 1, run six miles but at a comfortable pace, one during which you can converse easily with a training partner if you desire.

Wednesday: Today's workout is Stretch & Strengthen (S&S), because that again is a term I've used frequently in other training programs to designate semi-rest days on which you do some alternate training, but not too much.

In honesty, I don't care what you do today as long as it is not running.

VICTOR SAIL FR / PHOTO BUN Colleen DeReuck, 41, 2005 W40 LDR Athlete of the Year If you want to run more than three days a week, you should have chosen another program. Cross-training is an option today too: cycling, swim-ming, even walking. Or some combi-

nation of that with work in the gym. Thursday: This is your Sorta-Long Day, balancing the Sorta-Short Day on Tuesdays. The mileage varies from six to eight miles most weeks with a single 10-miler thrown into the middle of the program just to prove you can do it.

Running these Sorta-Long Runs at an easy, conversational pace makes the most sense to me. However, if you feel you need some extra fast running, consider converting the sixmiler in Weeks 7, 5 and 3 into a "3/1 run," a term I use in many of my intermediate and advanced training programs.

Run the first three-fourths of the run (4.5 miles) at a comfortable pace, then finish the final fourth of the distance (1.5 miles) at an up tempo. You don't need to sprint in; just run somewhat faster.

Friday: Another Stretch & Strengthen day. Do something similar to the workout prescribed for Wednesdays. This might mean that if you cycled or swam on Wednesday, you might want to walk today or simply spend your time in the gym hopping from machine to machine.

Saturday: This is your second rest day. With a long run planned for each weekend, you want to make sure you have plenty of time to rest both before and after.

#### experienced runners.

If you would rather run long today, that's okay. In fact, feel free to juggle all the workouts to suit your particular lifestyle. And you don't need to always run the same three days all eight weeks of the program. Just maintain the regular pattern, and you'll be okay.

Sunday: Run long. Today you do your Long Run, and you'll notice that the build-up in this senior program goes from 12 to 20 miles, not the 6 to 20 miles in my 18-week novice program. That's because you're an experienced runner. You train regularly 52 weeks of the year and never get out of shape, so doing a 12-miler is no big deal.

I've prescribed that distance for Weeks 8, 6, 4 and 2 with longer runs Weeks 7, 5 and 3 leading up to the marathon in Week 1.

Only one 20-miler? Do you really want to run more than one? Do so in the odd-numbered weeks. Important: Do all of your long runs slower than your marathon pace. Don't overtrain! Here are some additional points to

consider: Racing: As an experienced runner, you probably enjoy going to the starting line more than two or three times a year.

If you want a race to test your fitness and give you an idea of what to expect in the marathon, Week 4 might be a good time for a somewhat long race of anywhere from 15K to a half-marathon.

And if you want a shorter speed test, you could fit in a 5K or a 10K in Week 6 in place of the 12-miler that weekend.

## Continued from page 12 Don't worry about doing fewer

miles. If you were interested in logging miles in your training diary, you would have selected a different training schedule.

Speedwork: I enjoy doing speedwork, and so do a lot of experienced runners. I'm trying to keep this program simple, so I'm not going to pre-scribe tempo runs, hill repeats or interval training as I do in several of my other programs.

If you want to do speedwork, choose your own brand of poison. Tuesday would be a good day for this type of training, because I'd like you going long and sorta-long on the other two days of the week.

If your club has a regular day for speed workouts where everybody meets at the track, juggle the schedule to accommodate what's available locally.

Taper: Given the fact that I'm asking you to do a 20-miler at the end of Week 3, that allows you only two weeks to taper before the race.

Don't you need a three-week taper period? Oh, come on! You've been around long enough to know that two is probably plenty. It's not that I'm beating you over the head with high mileage

You'll do fine in the marathon tapering two weeks, but notice also that the final week before the marathon features only a single, easy run of six miles, then mostly rest.

Do you have more than eight weeks before your marathon? Do you have less? If the former, you can modify the program by either repeating weeks or adding weeks up front with slightly lower mileage. If the latter, do your countback from Week 1, and improvise.

This Senior Marathon Training Program is for experienced runners, and I trust you to make the right choices. Just follow the pattern I've laid out for you, and you'll be okay. (The eight-week training schedule is on p. 12.) Good luck with your training. 🗖

hese are the proposals, approved at the USATF annual meeting, that will have an effect on masters throwers' events:

#### Shot Put, Hammer and Discus for Athletes Aged 80+

The 3kg shot and 3kg hammer for men age-80-and-over, adopted at the 16th World Masters Athletics meeting in San Sebastian, Spain, was approved by the Masters T&F Committee and will go into effect on Jan. 1, 2006. The 750 gram discus for women age-80+, also adopted by WMA in Spain, was not approved for 2006.

The shot and hammer were approved because specifications are available, since those implements are already in use by W50+ age groups. Specifications for the 750g discus are

#### not readily available. Ultra Weight Championships

The proposal, which had been approved in 2004 but was slighted over, to add an Ultra Weight Championships to the list of masters championships was accepted by USATF, so that it be defined as a viable event before approval.

The event consists of five weight events, starting with the specified weight throw for an age group, then the superweight and the next three heaviest weights. For instance, the 30-49 male throwers would start with their designated 35# weight for those age divi-

#### sions and continue with the 56# superweight, and the 98#, 200#, and 300# ultra weights.

- Throw-a-Thon to Masters
- Championships

A proposal to introduce a throw-athon for masters was introduced by Ray Feick. The event consists of athletes throwing different weight implements, e.g., the 2kg/1.5kg/1kg discus, with their marks scored by age-grading, the highest total determining the winner for each age group. The proposal had been introduced last year, but was tabled.

A motion to remove the tabling was passed. Feick will introduce the event next year, a rules year, so that it can be accepted to be defined as an event. Replacing the 56# Superweight With the 44#

A proposal, introduced by George Mathews, to change the superweight for men age-50-to-69 from 56# to 44# was amended to exclude men in the 50 and 55 age groups, and approved.

The event, 44# for M60-69, can be offered at meets as an option to the use of the 56# for those two divisions.

Once submissions are received for eight athletes in a ten-year age group, the top six times from that group are age-graded to determine the average – the age group with the highest group average gets the event.

The women's 200m is scheduled for 3:44 p.m., and the men's 200m for 3:53 p.m. on Sunday, Feb. 26.

Drake Relays Invitational Mile Late breaking news is that the Masters Invitational Mile at the Drake Relays had been taken out of the meet for 2006, but, after rallying several of the top milers like Tony Young, John Hinton, Peter Magill, Kevin Paulk, and Peter Hagelbach for the April race, it appears that the race will be contested again in 2006 – with the finest field yet.

If Anselm LeBourne can be persuaded to commit to the race, that will make seven of the top ten men in the U.S.

Go to the Masters Invitational Program web page for all the information and on-line entry. If you are over 40 and can run under 4:40 for a mile, your entry is welcome. All qualifying times must have been run in 2005/2006 seasons. The event will be run on April 29.

Under consideration are a 40+ 400m for women and 100m for men at the Outdoor Open Championships in Indianapolis.

## USATF Masters Hall of Fame Adds 11 Names

Another six active and five old-timer masters athletes have been elected to the USATF Masters Hall of Fame. The actives are Charles Allie, Vicki Bigelow, Franklin (Bud) Held, Sid Howard, Barbara Jordan, and Stephen Robbins. The old-timers are Gloria Brown, Barbara Filutze, Lori Maynard, Winfield McFadden, and Tim Murphy.

The Hall now contains 41 women and 88 men, of whom 81 represent the discipline of track & field, 37 LDR, and 10 racewalking.

Charles Allie, a 58-year-old sprinter from Pittsburgh, Pa., currently holds one U.S. and two world records of the six he set. A five-time world champion, he holds 17 indoor and 12 outdoor firsts in USATF national championships. In the past eight Penn Relays 100m, he has six firsts, one second, and one third with agegraded performances of 93% or better.

Vicki Bigelow, 70, San Lorenzo, Calif., set six world and four U.S. records over the past 25 years. From 800 to 10,000 on the track, from 8K to 15K on the roads, she has excelled at world, regional, and national levels.

Franklin (Bud) Held, 78, Del Mar, Calif., set a world record in the javelin in 1953 and is enshrined in the National Track & Field Hall of Fame (1987). As a masters athlete, he taught himself to jump and vault, winning the M75 pole vault both indoors and outdoors this year. Sid Howard, 66, New York, N.Y., set one world record and still holds six U.S. records in the 800/1500 and mile. In his 21-year career, he won eight outdoor and 25 indoor championships, plus finishing in the top three six times in WMA world championships.

**Barbara Jordan**, 70, South Burlington, Vt., still holds seven of the two world and nine U.S. records she set in short and long hurdles and the pentathlon. She has 33 national outdoor titles and 19 indoor titles to her credit. When not competing, Barbara has taught health and physical education for more than 40 years.

Stephen Robbins, 62, Seattle, Wash., is another sprinter with six world, four regional, 10 indoor, and six outdoor titles. He has set three world and two U.S. records – all exceeding 95% on the agegraded tables. His career has spanned the past 15 years.

Gloria Brown, 73, Grand Island, N.Y., was a long distance runner with a 1500 to half-marathon range. She won her age group 14 times in national LDR championships, before arthritis ended her career in 1997.

**Barbara Filutze**, 59, Erie, Pa., ran few championships but many quality races. She still holds five of the 12 U.S. records she set more than a dozen years ago at distances from 3000 to the marathon. Masters LDR named her Runner of the Year six times.

Lori Maynard, 69, Redwood City, Calif., was a pioneer racewalker, a longterm record-keeper, and outstanding racewalk official. She competed from 1977 to 1991 and has eight national racewalk titles to her credit. Maynard maintained women's racewalk bests (before official records) from 1979 to 1992 and has IAAF certification to judge international racewalk competition, and officiated at the Sydney Olympics.

Winfield McFadden, 100, San Diego, Calif., was a jumper who occasionally threw, sprinted, hurdled, racewalked, and won a national decathlon M80 championship in a 20-year career. He won eight WMA championships and 24 U.S. national championships.

al championships. Tim Murphy, 84, Irving, Texas, was a sprinter who excelled indoors. He placed in the top three at WMA world games five times, twice in WMA regional games, 15 U.S. national indoor championships, and 13 outdoor national championships. Carotid artery and triple by-pass surgeries in 1985 with follow-up stents in the bypass in 1995 caused his doctor to forbid further running by fall 1998.

The results of this year's balloting were compiled by Jerry Donley, Bev LaVeck, Mel Larsen, Shirley Matson, and Joan Ottaway of the Masters Hall of Fame Committee, supplemented by Ruth Anderson, Jerry Crockett, George Mathews, and Len Olson on the Old-Timers Committee. The announcement

was the highlight of the joint meeting of Masters T&F and Masters LDR held Dec. 2 at the USATF annual meeting.

Two hundred and eight ballots had been distributed to listed members of the two masters committees plus previous Hall of Fame honorees. Of these, 140 returned ballots, casting 1279 votes. Each person elected received a majority of the votes cast.

Phil Byrne, parliamentarian, explained the rules of discussion and for making motions

Bob Fine, representing Tom Light, the Law & Legislation Chair (not present), presented to the body the proposed by-law changes in Item 18 regarding restructuring of USATF. A motion was passed that Mathews, as MT&F Chair, indicate disapproval of restructuring to the USATF Board, because the results could mean loss of influence for masters.

Harry Brooks of the Media Sub-Committee, representing Bob Weiner, reported on the budget request for \$3000 and received \$1500.

Ken Weinbel, Site Selection Committee Chair, explained the site selection procedures. Jim Murphy, of the Inland NW Association, presented the bid for the 2008 Outdoor Championships, which is sponsored by the Spokane Regional Sports Commission. The bid for the meet, to be held in the last week of July 2008, was approved.

Jay Riddell and Kim Haines were introduced as directors. Spokane held the USA National Masters Championships in 1992 and 1996. The track at the meet site, Spokane Falls T&F Complex, was resurfaced in March 2005.

Spokane also was awarded the 2007 Weight Pentathlon Championships, a oneday event to be held probably two weeks after the National Championships in Orono, Me.

Lee Hess and John Oleski led a bid for the 2008 Indoor Championships in Boston, also approved. The event will be held in the Reggie Lewis Center, which was the site for the Indoor Championships for six years until 2005 (Boise, Idaho), and is the venue for the 2006 Championships. The 2007 Championships will be held in New York City.

Gordon Edwards, meet director of the 2006 Outdoor Championships, Charlotte, N.C., discussed the site, housing, food plans, transportation, and amenities, and answered questions.

Robert Hill reported on housing, transportation, and the facility (the New York Armory) for the 2007 Championships.

Mark Cleary, Masters West Region Coordinator, informed the group that the Southern California Association would be bidding for the 2009 Masters Outdoor Championships.

Phil Byrne, Masters T&F Awards Chair, explained the procedures for giving awards and named the winners (see p. 19). He noted that the majority of men and women voted for in both track and field awards were not named last year.

A motion was passed, stating that starting next year, award winners must be USATF members in the year of the event. A motion affirming the masters policy that marks considered for awards must be made in USATF sanctioned meets was also passed.

Sandy Pashkin, the U.S. and world agegroup records overseer, explained the pro-cedures for record consideration, noting, for instance, that at least three participants must be in a meet for national and world record approval. Pending national records are posted on the USATF website as soon as possible and are approved once a year at the USATF annual meeting. Pending world records are posted on the WMA website two weeks after being received.

Pashkin's request for a motion to approve the outdoor and indoor records, with exceptions, was made and approved.

Mark Cleary, Masters Invitational Program Chair, told the group that masters will have events at the open indoor and outdoor championships, and he will get the events and requirements on the USATF website as soon as he has worked out the prerequisites. In response to questions about those masters events, he explained that the selection of events for masters is confined to those events prescribed by USATF and meet directors, generally from the 100m to the mile.

A panel of hurdlers discussed the proposed study of the need to alter the present hurdles specifications or leave them untouched. The panel consisted of Jeff Brower, Joy Upshaw-Margerum, Phil Byrne, Ken Brinker, and Stan Druckrey, with Rex Harvey, WMA Vice-President Stadia, acting as moderater.

Opinions were relatively evenly divided among the panelists, as well as in the body, after much discussion. Harvey noted that WMA has charged its affiliates to come up with information on the possibility of hurdle specification revisions to determine what's best for the athletes. Brower was named to chair a hurdles committee.

Norm Green, Masters LDR Committee

Phil Greenwald, Masters T&F Manager, reminded the body that entry forms for the WMA World Indoor Championships, Linz, Austria, are due at the USATF office by Jan. 10, 2006. It was clarified that the 8K XC, 10K racewalk, and half-marathon to be held in Linz, will be championship events.

Becky Sisley advised the group that WMA has developed its own doping measures, and that a survey on women's pentathlons, which differ in individual events from the men's, will be made to determine possible changes in the event.

Green advised the group that all three LDR divisions (men, women, masters) oppose adding men 35-39 to the WMA official age groups.

Jerry Wojcik and Suzy Hess gave their annual report for the National Masters News. Wojcik reviewed the important meets and races covered in 2005 and thanked all of the contributors who provided information, articles, and photographs to the NMN during the past year, and asked them to continue with concern for accuracy. He also recruited volunteers to distribute free copies of the NMN to races and meets for the forthcoming year.

Hess stated that the NMN will continue to be a hard copy publication and will not become a webste subscription. She thanked both committees and the athletes for their support.

#### Dec. 1, 10:10 a.m.

Call to order by Norm Green, Chair. Don Lein, Awards Chair, handed out his summaries of race results to inform our voters on age-group Athletes of the Year. Despite all his work, he noted that deficiencies in the process remain and prevent him from doing a better job.

These are the most noteworthy problems in collecting useful data: many races do not report results, the RRIC is gone (USATF says they will start doing some of this work), and people claim efforts that weren't reported or weren't on certified courses.

He then took nominations for the Otto Essig Award. The nominees were the Twin Cities Marathon, the Tulsa Run, and Pete Glavin/the Genessee Valley Harriers. The last nomination was later withdrawn, before voting.

Green, Chair's Report: The general problem of replacing the RRIC is unresolved. We are working on ways to accomplish the functions it provided to us.

So far, Jim Estes, in the new staff position of LDR Coordinator, has been mostly focused on Open LDR and site selection for the 2008 Marathon Trials. Fred Finke, the new LDR Division Chair, has also paid little attention to us. The IAAF has changed their rules to define all masters as age 35 and older.

We are compelled by USATF By-laws to conform at some point. This major change is something he (Green) and the Executive Committee oppose, and we hope to prevent its immediate implementation. This transition will be a challenge on any schedule, especially at the association level.

Motion: Nominees for the Masters Hall of Fame must be at least 50 years old. Passed unanimously.

Green continued: The Board of Directors has spent most of the last year dealing with the flawed elections during the last convention, which selected our Vice

President and Secretary. He has been embarrassed to be on the Board during some of their acrimonious meetings.

The Board spent most of the rest of its time on high performance issues. Masters and youth, comprising the vast majority of members, are as unimportant as ever to most of the Board. Next year, at the Annual Meeting, delegates will decide on restructuring the Board, which is likely to proceed. The Board would then be approximately 12 members, with none representing a specific constituency.

Mary Rosado: Review of pertinent L&L proposals, including restructuring, RRTC, and Reg. 7.

Noon

Recess. Dec. 2, 12:08 p.m.

Call to order.

Lein conducted voting for Athlete of the Year in each age group (see p. 12).

John Boyle, Championships: No new bids. Only the marathon and 10K championships are currently scheduled for 2006. At this point, we could take bids by mid-January for races after August 2006.

Green: Brief review of our budget. The Budget Committee has approved \$33,000 vs. Chair's request of \$34,000, a result which he considers quite satisfactory. He expects this to be accepted in the closing General Session.

Lein, with the assistance of Linda Honikman, conducted a review of record applications that have been recommended for approval by the Records Committee. We confirmed their recommendations for the General Session to ratify, from the 2005 Annual Meeting Reports beginning on page 152, items 14, 19 (time corrected to 16:18:00), 26, 27, 33, 34, 47, 48, 51, 52, 67, 68, 75, 78, 79, and 89. We recommended to ratify, pending course validation before 2006, items 13, 43, 46, 49, 50, 55, 58, 77, 84, 85, 86, and 87. 1:55 p.m.

#### Recess. Dec. 3, 2:05 p.m. Call to order

Bill Quinlisk, XC Council: Carmen Ayala-Troncoso and David O'Keeffe are Master Harriers of the Year. The 2006 Winter National Championships will be in the New York City area in February. The 2006 Fall National Club Championships will be in San Francisco. Masters 5K championships will again be held in Saratoga Springs; N.Y., in October. For 2007, the Winter Nationals will be in Boulder, Colo.

Sue Cordero, ADA: The Association of Disabled Athletes recently held their first XC championships. They may contact the XC Council to discuss holding joint events.

Green hears no objection to his proposal to continue the current Executive Committee. This comprises Green, Boyle (Vice Chair), and Lloyd Stephenson (Secretary) as Officers, and Charles DesJardins, Lorraine Gersitz, David Katz, Don Lein, Bill Quinlisk, and Mary Rosado.

Discussion of possible action by committee if revised item 49 of the L&L proposals is approved. This relates to championship team scoring and residency. Fred Finke, LDR Division Chair: L&L

item 28, Lucas/RRTC, has been tabled. RRTC Chair has resigned as of 12/31/2005, new chair to be appointed by President as this is an administrative post. Lucas has agreed to work on finding a course certifier in each association.

RRIC ended as of 10/31/2005. The USATF office possesses all the accumulated data from it, and will perform most of the functions it did, including validating new age-group records. However, they will not maintain single-year age records. Results should go to results@usatf.org. Jim Estes said he will manage paperwork on possible new records after receipt of results.

Finke agrees that lack of results from

Becky Sisley said that the enormous task of compiling a meet manual for regional and association meets is nearing completion, with the draft document having been distributed to several representatives for review. Plans are to have the completed manual on the MTF website and also available on disk. She projects a completion date by March 1.

A committee to study the events in the women's pentathlon and recommend possible changes was formed, with the following members: Sisley, Mary Trotto, Phil Raschker, Joanne Petkus, and Christel Donley.

Another group will examine the discrepancy in numbers between the LDR team managers, who have to organize teams for three events, and T&F team managers, who are responsible for 25.

The delegates to the WMA Indoor Championships, Linz, Austria, are George Mathews, as Masters T&F Chair, and elected delegates Bob Fine, 20 votes, Robert Thomas, 19 votes, and Marilyn Mitchell, 13 votes, alternate delegate.

Craig Masback, USATF CEO, spoke to the committee, commending masters for their 2005 accomplishments. He said that the proposed restructuring of the USATF

SUZY HESS John Keston, M80, won both the LDR Runner of the Year and Track Athlete of the Year awards for 2005

races is a large and chronic problem. Record approval process will be similar or the same. The USATF race results database is accessible, or will be.

Green: He plans, tentatively, to use some of our committee budget to maintain single-age records. He will try to contract with an interested and capable party.

Quinlisk: We should add to our championship guidelines some procedures for chip timing. He showed photos of chip errors from a recent championship involving placement difference between first foot across finish line and torso.

3:47 p.m.

Meeting adjourned.

Submitted by Lloyd Stephenson, Secretary

Board was mandated by the USOC. He stated that the masters movement is at the heart of the biggest growing segment of the U.S. population, and that eventually corporate CEOs will wake up to that fact.

Masters track and field participation presents the "most incredible imagery that can be offered," he said. However, our numbers are not as big as long distance running is, in business terms. He said he favors a membership fee increase, perhaps a two-tiered one for youth and adult, but one that reflects a return to the groups that experience the increase. He mentioned that membership should be a 12-month membership, not an annual one, and that runners in large road races that do not require USATF membership may be induced to buy a one-day membership.

Todd Taylor, Strategic Plan Facilitator, discussed the six-page USATF Masters Committee-2005 Strategic Plan Summary that was given to the committee.

(Note: copies of annual reports by masters committees and officers, regional coordinators, and other masters programs, such as rankings, were made available to members of the Masters T&F Committee before, during, and after the annual meeting.)

Masters T&F Committee Minutes

met outside the closing session and returned with the decision that LDR would accept the M35-39 group on January 1, 2011, citing contractual obligations through 2010, with an attempt to persuade WMA/IAAF to drop the W35-39 adoption.)

Continued from page 16

Dexter McCloud, Masters Committee on Diversity Chair, discussed the USATF Masters Committee 2006 Strategic Plan on Diversity booklet distributed to members present and asked for volunteers to serve on the Committee.

Marilyn Mitchell discussed various aspects of diversity. Evie Dennis, Chair of the Diversity and Leadership Committee, addressed the group and amplified on the Mission Statement: To facilitate opportunities to promote the ability of masters athletes and committee members from a great variety of backgrounds to cooperate productively and make as great a contribution as possible to our organizational goals.

Bob Fine reported on Law and Legislation items and said Item 49, dealing with residency exceptions, had been tabled

Sandy Pashkin explained club scoring, noting that non-citizen residents of the U.S. can score points for a national club; foreign clubs cannot score points. An ad hoc committee was established to study club scoring and advise the Masters T&F Committee before the Aug. 1, 2006, deadline for rule changes.

The matter of association transfers will be presented in 2006, a rules year.

An issue of great interest was the General Competition Committee report regarding an increase in USATF membership fees. Much discussion ensued, with some members voicing disagreement with the Chair's position of favoring a fee increase. Todd Taylor's motion that the Masters T&F Committee support an increase of \$10 for adults with a 20% increment to go to masters was approved by a vote of 25-Yes/11-No.

Mathews announced the establishment of an ad hoc committee to study contingency plans for possible changes in the restructuring of the USATF Board in 2008.

## WMA Women's Meeting - San Sebastian, Spain - August 27, 2005

The regular Women's Committee meeting of the World Masters Association (WMA) was called to order at 5:05pm in the Paulino Uzkudun Room at Anoeta Stadium in San Sebastian, Spain, by Marina Hoemecke-Gil, Chairwoman. Chairwoman, Ms. Hoemecke-Gil, volun-

teered to translate from English into Spanish and French and NCCWMA Women's Representative, Marilyn Mit-chell, performed the tasks of the secretary.

Thirty-eight women signed-in on the meeting roster as attendees, but the actual number of attendees fluctuated, as people entered and departed the room during the meeting, including several men. Everyone was invited to participate

Africa Edmond, Absent: May Representative, was not in attendance but sent her report to be read.

Present: Marina Hoemecke-Gil, Committee Chairwoman; Glory Barnabas, Asia Representative; Iris Menza, South American Representative; Marilyn Mitchell, NCCWMA Represen-tative; Helen Tobin, Oceania Representative; Selma Türkkal, Europe Representative. Approval of the Minutes

Ms. Hoemecke-Gil, summarized the 2003 minutes of the meeting held during the champi-onships in Carolina, Puerto Rico, prior to their approval.

Motion to approve: Becky Sisley, USA Second to motion: Christel Donley, USA The minutes were approved by voice vote. Chairwoman's Report

Ms. Hoemecke-Gil, was pleased that 735 of the 2638 registered athletes at the first-time indoor WMA championships in Sindelfingen, Germany were women. She further noted that the regional representatives were active in their respective regions in both attendance at regional championships and/or in devising and circulating surveys to solicit input from their female ath-letes. Ms. Hoernecke-Gil finally expressed her satisfaction with the committee, its work during the four years since her election in Brisbane Australia, and with the support she has received

from the WMA Council. Regional Reports

The regional representatives summarized their written reports, which had previously been submitted in dossier form to the WMA Council and which are available free-of-charge to anyone who so requests. Requests should be made to Marina Hoernecke-Gil for copies of regional reports, which will be mailed free-of-charge (email address: marhoer @putput.es).

A. Asia, Glory Barnabas. The 13th Asian Masters Championships were held in Bangkok, Thailand, in December 2004, with more than 1200 participating athletes. Of those, 415 participants were women, for an almost 50% participation level, with 36 Asian records set by women, most of them in the older age groups. The host country, Thailand, had 101 women and India was second, with 74 women. Five other countries sent 30 or more female athletes each.

Additionally, Bill Purvis (Hong Kong), sent Ms. Barnabas a report indicating the following outstanding performances by Hong Kong female masters athletes:

1. Two Hong Kong masters women were first and second overall in the 50K racewalk, held in conjunction with the WMA 100K championships in November 2003, beating all the men.

 A Hong Kong masters woman won the open women's section of two AIMS marathons in 2003, Macau Marathon, and the Coast of China Marathon.

3. A Hong Kong master's woman topped the open rankings for women at the 5K, 10K, halfmarathon and marathon distances.

4. A Hong Kong masters woman won the master's woman's title at the Rotterdam Marathon

5. A Hong Kong woman won the W35 cate-gory in the Tokyo Women's Marathon.

B. Europe, Selma Türkkal. The European region (EVAA) now has 43 affiliates participating in meets, with the most recent additions of Azerbaijan, Croatia and Liechtenstein. The level of female competition is very high both in terms of quantity and quality.

One of the major problems facing the region

is the poverty in the eastern countries, which either have no veterans' federations and/or receive little or no support from their federations and veterans' federations. The Balkan Athletics Veterans Association (BAVA) was formed in March 2000 in order to address some of these concerns, but there were administrative changes in the structure of BAVA and Ms. Türkkal has withdrawn her support from, and participation in, the organization because the promised and expected support for veterans' athletics has not materialized.

On the non-stadia side the non-stadia championships held in Portugal in May 2005 had 235 female participants from 23 countries.

North America/Central America/ Caribbean, Marilyn Mitchell. Ninety-five of the total 333 participants at the North America/Central America/Caribbean WMA (NCCWMA) championships held in Dorado, Puerto Rico, were women, for a 28.5% partici-pation level. The women tended to not specialize and in general competed on average in more events than did the men.

The top age-graded performance of the regional meet was turned in by a woman, Olga Kotelko (Canada), with her W85 0.94 mark in the high jump.

Two significant awards were made during the period to female veteran athletes:

 Kathryn Martin (USA), age-group 50-54, received an award from a well-known sponsor which was awarded at the federation's awards ceremony with the other top Olympic and world athletes and Kathy appears in a Nike television commercial as well.

2. Philippa Raschker (USA), known as Phil, was one of the five finalists in Sullivan Award Competition, the only track and field athlete to be so honored in 2004. The Sullivan Award is one of the most prestigious sports awards for amateur sports in the United States and the finalists and winner are chosen by more than 800 spots writers

D. Oceania, Helen Tobin. The 12th Oceania regional veterans championships, held in Raro-tonga, Cook Islands, in October 2004, were very successful, with 270 participating masters athletes. All events were held, except for the pole vault, which was not staged for technical reasons. It was not possible to transport the poles to Rarotonga.

Women athletes accounted for almost 50% of the participants, with most of the women con-centrated in the older age groups. The 30-34 and 35-39 age groups attracted only five competitors. As usual, Australia and New Zealand accounted for the majority of the athletes, but the level of participation and enthusiasm of women from the host country was well-noted and was a testament to the training program undertaken by Jim Blair

as part of the Oceania development program. Women widely participated as officials in all areas, including the starter on the track, the provider of timekeeping services, the referee, the provider of computer/data management for results as well as performing various other offi-ciating, ceremonial and administrative duties. Many of the athletes doubled as volunteer officials and/or administrators, which is quite a common occurrence in this part of the world, and which works.

The disparity in income and vast distances between and among the countries of the region creates a continuing challenge and, as a result, the regional council has determined that development is a continuing high priority.

The top female veteran athlete of the year 2004, as chosen by the IAAF, was Jeanette Flynn (Australia) with world records in the 800 meters and the mile. It was the first time that IAAF had selected an outstanding male and female veteran athlete of the year, and Ms. Türkkal (Turkey) was kind enough to include the information in her report, even though the athlete was from a part of the world other than her own.

E. Latin America, Iris Menza. Approximately 1630 athletes participated in the South American championships, of which 232 participants were women. The highest number of ath-letes were from Argentina (379), followed very closely by Chile, with 374 athletes, and Uruguay, with 367 athletes

Several seminars were offered free-of-charge

at the conclusion of the competition in Spanish, but video presentations made the content of the seminars easily understandable even to non-Spanish speaking attendees. Most of the 173 seats were occupied, with additional athletes standing.

The championships also featured social and cultural events free-of-charge, such as a tango festival and an orchestra concert at a theater renowned both architecturally and for the famous musicians who have performed there in the past, including Enrico Caruso and Arturo Toscanini.

The women's meeting resulted in several conclusions, including but not limited to, the following

1. There is very little official support in any

of the countries in the region. 2. There is an increase in both quantity and quality of certain of the women's performances, as evidenced by the records.

3. There is an increase in women taking positions in the administration and governance of the sport and the importance of electing or selecting women based upon their competence and not by a quota system.

4. There is a need to have more officials and technical personnel for masters meets;

5. The importance of having seminars and developmental training sessions.

6. The need for distribution of athletics information in Spanish to athletes in the region.

F. Africa, May Edmond. Not present, but sent report to be read.

The Mauritian and Reunionese women participated in a Grand Prix cross country series, comprised of four races held in Jan. and Feb. 2004, with overall champions designated in fiveyear age groups. Some of the additional competitions during the period covered were a 10K cross country in Reunion Island in May 2004, the Mauritius International Marathon (June 2004), where May Edmond was first in her agegroup, a couple of cross country meets in Aug. and Sept. 2004, a road race relay which included two teams from England (Oct. 2004), a semi-

marathon (Dec. 2004) and a national meet. One difficulty in representing the women in this region is the lack of response ... Ms. Edmond does not receive any response from her various attempts at correspondence with other parts of Africa.

Another major problem is funding ... there are no funds to promote women athletes in Africa and all travel and expense is paid for from the Women's Representative's own personal funds. Medical & Doping Committee

Stan Perkins (Australia), WMA Oceania Delegate, gave a brief report from the WMA Medical & Doping Committee and most of the subsequent discussion concerned doping issues.

Doping

1. Previously positive drug tests from WMA athletes were given to the IAAF, but under the new policy, positive drug tests would be the responsibility of WMA.

2. The discussion which followed indicated that some areas of the world have not had much information on the drug policy and testing pro-cedure, this being particularly true in Latin America

3. Bridget Cushen (U.K.) felt that the seminars in Riccione would not be helpful because they would not be well-attended. She also reiterated that the athletes were not well-informed on the topi

4. Mr. Perkins indicated that he would invite the World Anti-Doping Agency (WADA) to set up an information center at the next world championships and he indicated that the WADA website, which lists banned substances, is updated every 28 days. It was also mentioned that there will be a series of seminars on doping at the 2007 championships in Riccione.

5. Doping control seems to be conducted in national championships in France and Uruguay. It was reported that of the approximately 10-15 tests conducted in the South American championships, only one was positive.

 Vitamin supplements were mentioned as an issue, with Mr. Perkins mentioning that approximately 75% of the submitted medical forms indicated vitamins and/or vitamin supplements.

B. Medical - Lack of ice at the current com-

petition sites was a concern which was noted by Mr. Perkins.

Medal Awards in Weight Pentathlon There was very little discussion on the issue, because the issue was apparently not going to be brought to the floor of the General Assembly. However, Iris Menza (Uruguay) wanted the min-

utes to register her opposition to team medal awards in this event, because many countries are not conducting the weight pentathlon. Women's Discus

Discus: Original proposal to lower 1kg weight discus to 600 grams for women 60+. Australia (Wilma Perkins): Ms. Perkins

gave a formal presentation and rationale from results of a study she conducted, and made an argument for decreasing the weight of the discus to 750g or 800g (instead of 600g), because the 750g and 800g implements were already avail-able. Hereafter, discussion seemed to focus on the 750g implement.

Because the biggest break is in age 75+, Ms. Perkins favored a change at age 75+, but mentioned that some members of the Stadia Committee wanted to work in round numbers for the age break-point, so change in implements would probably be at age 80+ instead of age 75+.

Ms. Perkins herself felt that age 60+ was too young to reduce the weight, and therefore suggested that there would be an amendment to the original proposal.

France (Eliane Clamaran-Danzelle): Ms. Clamaran-Danzelle thought it would be more fair to have the age-change at age 70+, because the men have a gradual drop in weight at that time

Uruguay (Iris Menza): Ms. Menza wanted to sit at the table with experts, such as doctors and medical personnel, and ask questions concerning the impact of throwing events with regard to age and weight before making any decisions.

Switzerland (Margaritha Dähler-Stettler): Ms. Dähler-Stettler suggested that throwers usually start fitness training early and maintain their fitness throughout their throwing careers and, as a result, age 60 would be too young to com-mence diminishing the weight of the discus.

Ms. Dähler-Stettler would agree with the 750g implement with the decrease at age 80+.

Women's Pentathlon Substantial time was devoted to discussion of potential changes to the Women's Outdoor Pentathlon. Women's representatives and athletes attending the meeting gave a summary of the pentathlon as contested in their respective areas of the world and/or respective countries and a chart is attached at the end of this document with a summary of the discussion. Pentathlon discussion took place just prior to discussion on the discus, but is presented in minutes at the end of the

report so that the summary page of comments on the pentathlon can be at the end of the report. Discussion indicated that the women's pen-

tathlon was a championship event until it was replaced by the heptathlon. However, the national championships in many countries have retained the women's pentathlon because it can be contested in one day and there often is insuf-ficient money to hold the heptathlon, which

must be contested over a two-day period. An informal, non-binding vote was held to determine the overall opinion on retaining the hurdles in the women's multi-events and the overall sense of the meeting was that the multievents should retain the hurdles: Combined Events: With hurdles: 21; No hurdles (Wilma Perkins vote): 1; Abstentions: 2

USA (Becky Sisley): Ms. Sisley wants the indoor versus outdoor pentathlon to be put on the agenda for two years from now and wants a long throw instead of a short throw.

# Report from Britain

## By BRIDGET CUSHEN

Averil McClelland, mother of a young family, and a doctor working three days per week, concludes another track and field season at the top of the W45 ranking list.

Her 8.20 for the 60m indoor is only one hundredth of a second slower than the fastest W35 over the same distance. Her 25.74 for the 200 is faster than the best W40. After British outdoor 100/200 and European indoor titles in Sweden in March, and running seemingly endless heats at the World Championships in San Sebastian, Spain, she came home with two individual gold medals, two relay golds and a 400 bronze.

Other notable rankings are those of Carole Ann Powell, topping the W50 200 (27.36) and the 400 (59.87), British and European records.

Ireland was the venue this year for the annual British & Irish Masters International Cross-Country Races held Nov. 12 on the beautiful grounds surrounding the palatial Santry Demesne in Dublin. The host nation fielded their strongest teams, winning the W35/W40 individual and team agegroup races and, surprisingly, also the W50 team title.

Niamh O'Sullivan retained her W40 trophy and evergreen Pat Gallagher led Wales to victory in the W60 race. Karen Marshall, running in the colors

of Northern Ireland, won the W50 race, coming in sixth, and continuing her unbeaten sequence through the W45 age-group in one of the most competitive races on the calendar.

Guy Amos also retained his M40 title and led England home. Northern Ireland got another medal when Alan McCullough came in a close second. Mike Hager's winning time in the M55 race was the best of the day.

Scotland got one gold medal as Bob Young raced away with the M60 title.

The BMAF 10 mile road race was held in freezing early morning fog at Bishop's Stortford, Nov. 20. The twisting course may have slowed times slightly, but it was a good race for each age category title with M40s Matt Flannery and Richard McCormack getting home in under 55 minutes.

Run faster as you get older appears to be the successful motto of Northerner Derek Howarth. Better known for his 800/1500 runs in international events, he notched up a British M75 road best here in 74:08, before setting off to Cyprus for more racing and warm weather training. Sharon Gannon, W40, was first

woman (61:43). Sue Cariss continues to achieve remarkably consistent and super fast times on the road over distances from 5K to the marathon. Here she just missed out on another British best, taking the W55 race (64:54).

## Canadian Masters Take Back Fleischmann Cup

On Nov. 13, the U.S. masters men made a great showing against the Canadians on their home turf in the Annual Cross-Country Challenge, but the Canadians took back the perpetual trophy Fleischmann Cup by winning the women's division overwhelmingly and scoring the least amount of points overall.

Ten men and two women represented the U.S. in White Rock, B.C., under semiclear skies on a wet and muddy course through Crescent Park. The men ran an 8K and the women a 6K.

The race was won by American Kevin Olsen, of Bellingham, Washington's Fairhaven Runners, in 28:30. Teammate Jay Sloane finished behind Olsen in the M40 division, giving the U.S. a three to seven victory.

In cross-country, low score wins, and in the challenge, each five-year division is scored separately.

The M45 division was a clean sweep by Americans Chuck Dooley, John Rowley and Patrick Kenworthy, giving the U.S. six points and the Canadians 15,

The U.S. had no runners in the M50, so we had to score two ghost runners behind two Canadians. The U.S. was represented by Peter O'Neil in the M55, so the Canadians could only score one runner also, and since he placed second, they

beat us only one to three. Roger Dean, U.S., placed fifth in the M65, and Ben Grevstad was second in M70+, enabling the U.S. to tie with the

Canadians at 33 each. It was a satisfying outcome, but despite the success of Sue Grigsby winning the W45, and Patricia Rowley placing third in that division, the rest of the women's divisions were won by the Canadians, giving them the overall victo-

## OBITUARY

 Essie Kea, Cleveland, Ohio, passed away from a brain tumor on Oct. 28. She was born Sept. 22, 1937. I had known Essie for almost 20 years. She was a wonderful competitor in the sprints and high jump. Although we lived in different regions of the country and only saw each other a couple of times a year, she was a dear friend, totally unassuming and humble about her considerable athletic abilities. We would generally meet every year in May at the Southeastern Masters Championships, Raleigh, NC, go out to dinner and catch up on news. This past July, I stayed at her home while participating in the Combined-Events Championships, and she took great delight in showing me around the area and the park where she trained. Although she was having some trouble with her knee at the time, she came to the track and assisted her teammates at Over The Hill TC with the meet. This was typical of Essie. If someone needed help, she'd be there. Retired from a nursing career, she was teaching a practical nursing course part-time, "because they really need my help." Although she won many national championship medals, one of her greatest achievements was taking the bronze medal in the 200 at the 2003 Puerto Rico WMA World Championships. A gentle woman, but a fierce competitor, Essie was also a great trumpet player. She will be remembered fondly by all whose lives she touched.
