1992 DRAKE RELAYS QUOTES  
Friday, April 24

Len Sitko, Illinois: Anchor Winning Men's 4X1600-Meter Relay in 16:34.16

Iowa State won five in a row and we wanted to put an end to that. The guys (legs) kind of put me in a place to win. I knew Jon Brown of Iowa State had 'stuff', had a lot of experience winning and would be tough to beat. The guys put me on the leader and I let Brown do all the work (run in the lead). That was the bottom line. We have four people capable. We thought we could do it (win) and we did.

He had the lead right off the bat so I figured I would let him lead the whole way. If he (Brown) was going to win, he would have to go out hard. I decided to sit back and relax and stay with him and wait for the last 200 meters and then kick it hard.

This is the first time I won a (relay) race at Drake. This is Iowa State's home state and beating them was a pretty big win to me.

Jim deBeers, Illinois: who ran opening leg on 4X1600 Relay:

We are all seniors so this is a great win for us. We have been here before but we never put together a relay that had a chance to win. To come in and win when Iowa State is perennial champions makes it an important win especially because it was an Illinois record that they were attempting to break.

Jon Brown, Iowa State: Anchor leg of second-place 4X1600 Relay team in 16:38.98:

(Sitko) is a very good miler and he made a good move in the final part of the race when he passed me. I thought we would be farther ahead at the beginning of the race.

This was a tough race for me because I was tired and it (losing) is very disappointing.

Bill Betterton, Carlisle: Winner High School Boys 110-Meter High Hurdles in :4.15,  
DRAKE RELAYS RECORD

I got out quick and then closed my eyes and ran as fast as I could.

This is really satisfying (getting his second Drake win). I wanted to go to :13 but this is OK. It was a very important race to me ... a very emotional win.

I knew for sure I had it half way through the race and I was just flying. I've been sick all week and have been running a temperature, so I'm scratching on the 400 hurdles and saving it for the long jump tomorrow.

Suzie Darnell, Knoxville: Winner High School Girls 100-Meter Dash, :12.57.

I feel I got out really fast - then I realized I was ahead and just kept going. I haven't run this race much all year. I was just a little more pumped up today. My coach, Randy Wilson, isn't here because of a funeral, so we decided we wanted to do something good for him.. I was trying to run my race, and I didn't worry about anybody else. I usually run the 100 hurdles and some relays for our team.

## FRIDAY'S DRAKE RELAYS QUOTES -- 2

Curtis Hawkins, Ames: Winner High School Boys 100-Meter Dash, :10.74

The start is what did it for me, I beat everybody out of the blocks. I just wanted to stay focused, get out of the blocks and run my race. I just stayed with what I wanted to do.

There are so many good runners here, its an honor to win here. Winning the state meet gave me all the confidence in the world.

Ken Popejoy, Wheaton, Ill.,who defended title in Masters' 800-Meter Run, in 1:57.39.

This is a thrill for me, winning my second straight time here. I was hoping to get a record, but the wind off the back stretch really held me up.

I'm leaving later to catch a plane to the Penn Relays to run in the Masters' mile. I told them I couldn't miss running at the Drake Relays. This is where my heart is. This is the best track meet in the country, unquestionably.

It's great for a 41-year-old lawyer who anchored his four-mile relay college team to victory here 20 years ago to show some of these kids the older guys can still do it.

Members of Iowa City High which won High School Boys 4 x 800-Meter Relay in 8:06.25.

Josh Briggs, lead-off runner: We got some great guys and had a great team effort. I knew if I started out strong the rest of the guys would pull it out.

We have a lot of heart and determination, we had a goal to win at Drake (Relays) and that's what we did.

Nile Heefner, anchor: It was a team effort, just a great race for all of us. We have a strong team, and I've anchored this race myself all season.

Dave Laughlin, No. 2 runner: We wanted to give our coach a victory here for the first time in his 25 years at City High. This is great to get our school's first relays win since 1960.

Wisconsin: Winner Women's Distance Medley Relay in 11:08.32 seconds, -- a Drake Relays record.

Kim Sherman, second-leg:

I don't think we were thinking record...we were thinking going for the win. You go all out and try to run the best you can and results like this happen. This is the first time we have all run together as a distance medley relay so we were surprised how much the crowd supported and helped us. Since we all race tomorrow, it was nice to have a race that went so well.

Sue Jentes, opening leg:

It is important for us to get off quick since we had not run this race before and for me running the 1200 meters, that was different. I run between the 800 and 1500 meters most of the time so I guess this distance was alright. (Leading the race) is scary because you do not want to let down. When I got out that fast, I did not want to die.

Clare Eichner, anchor leg for Wisconsin:

It is hard to run alone like in this race. My teammates put us so far ahead. The best thing was that I was glad that we all had good times. I realized that as I was going around the track (On going for the record) and heard the PA. That just added pressure...it was like winning was not enough.

Tommy Asinga, anchor man for Eastern Michigan which won University Men's 4x800 Meter Relay in 7:27.18.

We wanted the guys to hang in there until I could make my move in the final leg. I made my move with 300 meters to go...I thought I might have to do it with 200 meters to go. I knew what I had to do so I made the move when I did. This was a big win...

Paul McMullen, Eastern Michigan second-leg:

My strategy was to make sure I got the baton without falling down...it was very hectic. I am kind of a bigger guy and I am suppose to hold my position good. When I got the baton I was suppose to run a hard race and pick up a few guys if I could.

Joey Woody, Iowa City High, Winner of High School Boys 400-meter low hurdles in :52.45.

I felt strong toward the end, though I messed up on a few hurdles, but I ran well and I felt good.

I really like the Relays, the competition is good and the big names like Michael Johnson. It's fun to do this with my teammates, its a great feeling. The 4 X 800 team helped to enthuse me to run.

Jared Bruggeman, anchor for North Dakota's winning 4x800 relay clocked in 7:36.4:  
I went out good all the way to the finish.

Nathan Swenson: I knew that if I kept it close at the beginning that Jared would win in the end. After placing for the past five years we knew that this year was our best chance to win here.

Kory Zimney: I'm a senior and I knew that we would have our best chance to win this year, if it was going to happen this is when we would do it.

Jason Rouser, anchor for Oklahoma's winning Men's University 4x200 relay in 1:21.95

This is the first time we got the stick all the way around the track. At the Texas Relays, we dropped it and have been having trouble with timing this season.

I felt good about this race. The other three guys - Tod Long, Alan Brown and Nathan Banks - and me ran pretty good considering the conditions. I think we are making progress as a unit. We are working together better and making the handoffs with good timing and technique. This win definitely means a lot...it means a watch.

## FRIDAY'S DRAKE RELAYS QUOTES -- 4

Dan Steele, Eastern Illinois: Winner 400-Meter Intermediate Hurdles in :51.44

The weather wasn't the best for fast times today. But each meet out I'm getting sharper and sharper. I injured a hamstring last year and didn't compete all season. Drake was one of my three goals - I wanted to win here, repeat as an all-American, and do well at the Olympic trials. I ran 51.34 on March 28 at the Alabama Relays. My PR is 50.24.

Shanelle Porter, third runner of Nebraska's winning 4x200-meter relay in 1:32.95.

I felt really relaxed on my leg, and seeing Denise (Lucas) at the the end of it really helped me. Our girls are strong this year, everyone had a good 200. We went out trying for a school record and we did it. This is the only time all year we get to run the 4 x 200. This weather isn't bad - we have eight inches of snow in Lincoln.

Brad Bartlett, third runner on Morningside's 4x200 relay clocked in 1:21.30:

These are the best conditions we've run in this season, it's been really bad. The last guy, Stephan Pearson, finished it off for us. It's been over 40 years since Morningside has won a relays event here.

Chad Libby, leadoff runner: That was the best start for me in the last three meets out.

Ames: Winner of High School Boys 4 x 200-meter relay in 1:30.21.

Curtis Hawkins, anchor leg for Ames winning 4x200 boys high school relay team clocked in 1:30.21

: I still had plenty left after running in the 100. We were second starting my leg, but I used the curve to accelerate with, like a slingshot, then moved out on the straightaway. I was able to catch the guy that was ahead of me, and when I saw the finish line coming up I went for it.

Arnita Green, Ohio State: Winner in Women's 400-meter Intermediate Hurdles in :57.94.

I didn't start with blocks which in new for me, I kept starting with the wrong leg when I used the blocks. I don't use the blocks in practise so I decided to run in the meets like I run in practice and it's helped.

I was really looking foward to running here and this was the fastest time for me this season. The competition is really good and it gets me to run good also. This win is a step in the right direction, I'm looking forward to getting my time down to arond 54 seconds.

Brianna Benning of Cedar Rapids Kennedy: Winner of high school girls 800-meter run in 2:14.15.

I've been nervous all week and tried to relax and not think about it so I wouldn't get nervous. I tried to take it out fast, some of the girls who got out ahead so I tried to stay with them. I stayed with them until the last 200 yards and thats when I was able to go by them. This was my best race all year.

It's a good track and everybody runs faster here, you can expect anything to happen here because the competion is so good.

## FRIDAY'S DRAKE RELAYS QUOTES -- 5

Frank Fredericks, who ran third leg on Baylor's 4x400 relay team which won heat one in 3:04.16

If the weather is good Saturday we want to run something crazy, like breaking the meet record. We enjoy coming here and we want to run with more confidence heading into the Southwest Conference meet next week. We haven't had a meet yet this season where all of us have run well at the same time. Usually we have three good legs and one bad leg or three bad legs and one good one.

Kiersten Pauling, Des Moines Lincoln, who won the high school girls' 3,000-meter run, in 10:21.20:

I felt really good...I realized there was one lap left, and it came down to whoever had the most guts. I got boxed in but there were a lot of laps to go. I wish it was pouring or a little warmer. I felt a little tired with a couple laps to go. But you just look at the line and aim for that.

Conor Holt, Oklahoma, who won the 10,000-Meter Run, Men's Invitational, in 29:29.5, breaking an 11-year school record of 29:36

I felt fine 'til the last two laps. Once I finished I felt better. Coach Steve Baker has helped a lot and has been my main motivator. I hoped to run 29:20, but seeing I ran a school record I can't complain.

Bill Sitton, Drake, who finished 2nd in the 10,000-Meter Men's Invitational in 29:51.5:

I felt great. I ran exactly the kind of race I wanted to run. If I'm going to lose, that's the way I want to lose. I was so excited at the start, I had to get going.

Jennifer Brower, Iowa, first in 10,000 in 34:11.5 Women's Invitational Final

This was extra special for me because I've been coming to watch the Drake Relays since I was in seventh grade. It makes it even better since I finally won in my senior year.

It is hard running the long races, but I kept asking myself how bad I wanted it and because it was Drake, it was easier to keep myself going. The crowd really helped too.

The weather didn't bother me, it was a little windy but not bad and the weather was perfect for the 10,000.

**Mankato State** won the College Distance Medley Relay in 10:00.27 and the College 4 x 10 Relay in :41.30. (DuWayn Wright was a member of both teams).

1992 DRAKE RELAYS QUOTES  
Saturday, April 25

Jonathan Estabrook, Muscatine, winner of high school boys 3,200 meter run: "It was too windy to go for a great time so I decided to just tuck in and wait until the last lap and go after it. I've been doing 60 (seconds) on my last laps most every race so I knew I could do that. It was really too cold to go for one of those great times. I knew if I could just hang on until that last lap then I could out kick them (the Bati brothers of Iowa City West, Ambo and Roba) so that was my major plan. The other times I've been here I've always been boxed in or way in the back so I made it a point to get out early."

Estabrook placed fourth as a sophomore and was third in this race last year. "I knew it was my last year this year and I really went after it. I've been keying on this race ever since cross country when I didn't do nearly as well as I thought I should. Its been six months I've been waiting for this race. It feels great. "

Jonah Koech, Unattached (Iowa State), winner of the 5,000 meter run: "It was very nice to come back to Drake. I seem to have very good success here. I have three or four wins here. But the weather was a bit too cold."

"I could have run better, but the competition didn't push me as much as I need to be pushed. Right now I am running 90 to 100 percent. But I need to be 100 percent for the 5,000 meter trials in Kenya."

Augustine Olobia, Washinton State, winner of the University-College 100 meter dash: "No matter how cold it was the crowd really warms you up. Though it was only an all right performance I'm happy. It was nice to come and win."

"I'm preparing for the NCAA meet and after that I want to play football. With the draft tomorrow I'm really not sure that my mind was into it as it should be."

Arthor Smith, Baylor, winner of the 110 meter high hurdles: "I came out pretty well but I hit a hurdle somewhere in the middle and it slowed me down. But so did the guy from Nebraska so we evened up. Then I caught him at the finish. I really like to come here. They really treat you right even if you don't run. The stadium has a warming effect, because I was cold until the crowd started getting into it. Being a senior it was great to go out with a win."

Mankato State: Winner College Distance Medley Relay

Jason Olsen, anchor:

"This is a very big win for us. Nothing compares to crowds at Drake."

Dale Bahr, 2nd-leg:

"This was big as well because we beat all of the teams in the 4x800 yesterday and our lead runner never made it to the starting line in time. So this was a big win for us."

Darla Vaughn. San Diego State: Winner of Women's 100-Meter Hurdles. UC

"This is by far the best I have run this year. I ran a :13.2 earlier but today I had it together. I don't hear anything when I run well. I close my mind to everything.

This is very cold. I left 85 degree weather in California to come here. The crowd in itself gets you pumped up. It like a lot of track fans...like track city."

Kevin Little. U.S. West TC: third. 200 Meter Dash-Special

"I was used to the weather, or at least I was used to it. But I bought some warm clothes and I was fine. I felt good though; while I was running I blocked it out of my mind.

It is always nice to come back and compete. I've been nursing some injuries but still I'm looking forward to the Olympic Trials even though I'm a long-shot."

Natasha Kaiser. So. Cal. Cheetahs: second. Women's 400-Meter Dash Special

"I wanted to come out as strong as possible but usually I finish stronger than I that. Today I just didn't have it.

She (Gwen Torrence) ran the race I probably should have run. By going out like she did...you always have a good finish. I just did not have anything in the end.

I'll keep coming back to Drake - as long as they will have me. I really like running here but I like to put up quality times and I'm not sure I did that today."

Michael Johnson. Nike International: Winner Men's 200 Meter Special

"I had a really good jump or Adeniken had a really bad one. Generally he gets a pretty good jump. I felt good with the weather and all, just being cold wasn't a problem. I did wear leggings for the first time in my career. So far I'm far ahead of where I should be. Being the beginning of the year, I don't know where everybody was with their training but it was a good race.

In the future I want to win a gold medal...whether it be in the 200 or the 400. That is my number one goal. The decision about which event I will run will come much later. If I work hard I can win either race."

Lillie Leatherwood. Reebok Track Club.: third. Women's 400-Meter Dash Special

"I think it was a great race. I'm glad I didn't get hurt. It's an early time to be running. I wanted to see where I was because its my first open quarter.

I always like running here but today I just didn't get out well. The weather was cold but it wasn't why I ran like I did. The competition was good, Natasha was doing well. We had Hall of Fame banquet last time and just to receive this honor, I mean it gave me a wonderful feeling. I haven't been here since '87 so coming back was special to me.

The weather wasn't good, but no where else in the country will the fans come out watch like they do here.

**Leatherwood Continued:**

"I am looking ahead and will be working hard. I'm feeling good and I think my training is going good. I'm looking to the Olympic trials. I plan to be running well by that time, I will run three or four more quarters by then and I think I'll be ready."

Gwen Torrence, Mazda Track Club.: first, Women's 400-Meter Dash Special

"He (her son) knows momma's going to run well. He doesn't understand losing. I was a little disappointed. I'm still pretty pleased with my time. I just wish I would have PR'd today. I thought the race would come down to the three of us (Kaiser, Leatherwood, and Torrence), and I was just going to try to hang on. When you're running you feel nothing. You can feel the wind, but not the cold. I don't think I ever have (run in weather this cold). I've run in the rain, but not that hard. I hope it's my last (cold-weather race). The only difference is that it's very windy. The wind almost swirled me over to the next lane. It's unbelievable that there would be a capacity crowd here on a cold day like this. It's testimony to what a super meet the Drake Relays are and the people that make it the best in the country.

It feels great to be here, I really enjoy the crowd and all of the people. The competition was good. I thought it would be closer than what it was. I was looking forward to running against Lillie, she was looking good."

Danny Harris, runner-up, in special invitational 400 hurdles: "I warmed up for an hour and a half just to get warm. I only ran about 90 percent of what I'm capable of. So if I can only take it easy for the next three or four days I should be closer to where I need to be.

Today was a big mental race for me (referring to the hamstring). But anytime I run at Drake, it's always an advantage with the 18,000 fans cheering you on.

Brian Thomas, anchor leg on Iowa's winning sprint medley relay team which was clocked in 3:21.02

I was really pumped up about this race, it was the best today. The crowd got me pumped up and it built into my race and got me going. I went out good and I knew I would finish good, I ran my race.

It's great being here in front of the home crowd, I'm starting to really feel the tradition of the Drake Relays. I'm originally from North Carolina and this is my third year at Drake.

Baylor Goode, first leg

The weather was bad as you were warming up, but I was excited to be in front of this crowd and being at the Drake Relays.

Kevin Coleman, Nebraska, winner of UD-CD shot put: Technically I wasn't on today. Sure it was chilly but it was cold for everyone.

Jimmy Randall, who ran winning leg on Davenport Central 4x100 boys' relay:

I love it here, theres more people and more excitement than at the state meet. We love the fans and all the excitement that goes with the big names, we love it.

Corey Carrell, first leg

I saw the crowd and I really got into it, we expected a lot coming in but we're really satisfied with what we got

Karen Glerum, Iowa State Women's 1.500 invitational 4:23.53

The weather might of helped me today because nobody wanted to fo out fast. I knew I could handle the weather.

I knew I could finish strong, coach said I had the best kick, so I was looking to that. If they said I would have won three straight when I was a freshman I wouldn't have believed them

The Relays are unbelieveable, its like winning the NCAA's. The people who win here are like your heros, but when you win you find that they are just like you are, they are all human.

Janice Ettle, Minnesota: Who won the special invitational 5.000 meter run in

16:21.54. It was really big P.R. for me, I never really ran on the track, being a marathon runner. It gives me a great deal of confidence to win here.

From here I'll be trying to qualify for the (Olympic) Trials, and it really is nice to win here.

I never ran here before, but I have always heard about the Drake Relays. This is probably the biggest track meet I have run in my life.

I was trying to decide when to make my kick. It was to bad she (Tracy Dahl, Iowa) went down it would have been a good race.

Amy Wickus, anchor leg on the Wisconsin distance medley women's team 8:32.61

I didn't want to look at the clock, but once I got done I saw everybody cheering so then I knew we must have got it. It was hard with the wind, the back stretch was windy and cold. Drake is great, the crowd is great, they cheered for us and they don't even know us.

Sarah Renk, first leg:

We knew about the record and it was nice to get the ghost off our back. We had heard about this Wisconsin team that had the record in 1981 and we wanted beat that.

Kim Sherman, second leg:

It's great to be here at Drake and to break two records. I like running here too, we always heard that we should go to Drake (Relays)... Drake is a homey, fun place to run. I'll have good memories of Drake.

Kwani Stewart, 2nd leg, Nebraska, which won 4 x 100-Meter Relay, Women's Division:

It was cold. I just wanted run really good, that's all. We were third at Nationals. We're just shooting for a higher place. My handoff was too close (with 3rd leg Shanelle Porter).

Denise Lucas, anchor, Nebraska, which won 4 x 100-Meter Relay, Women's Division:

My leg felt real good. We kind of knew from the prelims that we'd win.

Helen Lueth, 2nd leg, Ames, which won 4 x 100-Meter Relay, High School Girls

Invitational: Pleasant Valley beat us before in the indoor. It was our first time under :50.

Hope Amos, anchor, Ames, which won 4 x 100-Meter Relay, High School Girls

Invitational: I was so scared.

Leigh Ann Powell, 3rd leg, Ames, which won 4 x 100 Relay, High School Girls

Invitational: I felt really good. I was just pumped. We were hoping to have really good handoffs. We got really good handoffs and that may have gotten her (Hope Amos) going. This is our best time. We've been stuck on :51. I'm excited for State. Drake is good because this is where State will be.

Tanya Gatlin, 1st leg, Iowa City, which won the Sprint Medley Relay, High School Girls:

We were nervous.

Kristin Vanderah, 2nd leg, Iowa City, which won the Sprint Medley Relay, High School

Girls: Ours (handoff with Gatlin) was real good. I'm so happy. Without a 400 runner like her (Jill Myatt) we could have never won it. We were ranked No. 1. Our competition would be tough, and with hard work we knew we'd pull it together.

Robert Anderson, Louisiana Tech, who won the University-College 3,000-Meter

Steeplechase: I tripped across the street and hyperextended my knee last week. I didn't feel it until after the last barrier. When I landed I was wobbly. It's not excruciating pain, but it's a little weak. Bryan Yockers and I went out together. I challenged him a bit. With 500 to go I picked it up. I didn't take him until there was about 270 left. This was my second real big meet. I came in and wanted to run as good as I could. So far I'm right on track with my goals. I didn't run as fast as I wanted. My legs started getting numb after the first 500. I train in Louisiana where it's 75, 80 degrees and I come here and it's freezing. This is my first time (at the Drake Relays). I can't believe it that the crowd could get into a distance race. For such a cold day there were a lot of fans. I've never been to Iowa before. It's a nice place.

Tommy Asinga, Eastern Michigan, who won 800-Meter Run, Men's Special Invitational:  
I was kind of disappointed (that Paul Ering wasn't running). Right now it's not important to win, just to run a good race. It's too bad he (Ering) wasn't there. Whenever I see him (Ering) I get the inspiration to run. It was a very great Relays for me. I came to Drake hoping for a fast time, but the weather was kind of against us. I guess the weather doesn't want us to run fast. That's why I was disappointed. It's nice to win, but I wanted a faster time. That's my goal (running at Barcelona). I really want to go there.

Anya McMurray, 3rd leg, Iowa City, which won 4 x 400-Meter Relay, High School Girls in 4:03.12: After the prelims we were happy-we were three seconds ahead. We knew we could drop our times. That gave us confidence.

Sarah Vanderah, 1st leg, Iowa City, which won 4 x 400-Meter Relay, High School Girls in 4:03.12: I'm happy we could pull together as a team. Everyone on the track gave us incentive to go for it.

Jill Myatt, anchor leg, Iowa City, which won 4 x 400-Meter Relay, High School Girls, in 4:03.12: The 400 is what I usually run. You can't really compare them (her two Drake Relays victories). In the 4-by-4 we've come into our own. We kind of ignored it (the lead going into the finals). We came in hoping to improve.

Missy Novotny, 2nd leg, Iowa City, which won 4 x 400-Meter Relay, High School Girls, in 4:03.12: Coach told me to run the first 200 as fast as I could. I'm so glad we won. Our 4-by-4 team has been working hard for the last two years.

Joey Woody, 1st leg, Iowa City, which won 4 x 400-Meter Relay, High School Boys:  
I'm real happy. It's quite an experience. I wasn't sure I could win again. (won 400 hurdles Friday)

Chad Pate, 2nd leg, Iowa City, which won 4 x 400-Meter Relay, High School Boys:  
I wanted to hold out with a win (he's a senior). Winning two is like icing on the cake.

Jason Keese, 3rd leg, Iowa City, which won 4 x 400-Meter Relay, High School Boys:  
I'm not looking to next year. I'm looking ahead to State.

Tim Dwigh, anchor leg, Iowa City, which won 4 x 400-Meter Relay, High School Boys:  
I was way ahead when I got the baton. I just pretended someone was with me the whole way.

Shanelle Porter, anchor, Nebraska, which won 4x400-Meter Relay, Women's U-C:

It's great competition. It (the time) would have been faster, but I ran in lane two on the first curve.

Denise Lucas, 1st leg, Nebraska, which won 4 x 400-Meter Relay, Women's U-C:

It's my last year. I wanted our times to improve. We did on every event.

Susan Rehn, 2nd leg, Nebraska, which won 4 x 400-Meter Relay, Women's U-C:

I was defending champ in the the 400 hurdles, but I didn't win. This win helps ease the pain. The fans are great. I can hear the announcer the whole way, and that helps. We don't get fans like that at Nebraska.

Marcel Laros, Texas-El Paso, who won U-C Men's 1.500-Meter Run:

It was too cold! I was hoping for warm weather so I could run a faster race and qualify for nationals. The weather did not cooperate, so I just decided to go for the win. It was a tough race. I had trouble getting to the front of the pack. I was boxed in and couldn't get out.

Jonathan Estabrook, Muscatine, who won 1.600-Meter Run, High School Boys in 4:25:

It was more special because it was the second one today. I didn't know if I had enough left after winning the 3,200, because I felt bit sluggish. I really wanted the 3,200; that was the one I was really after. But fortunately, I had enough left for the 1,600, too!

Ethridge Green who ran anchor leg on Baylor's University Division winning 4 X 400 meter relay in 3:02.83: We did as well as the weather permitted us to run. We could have got record if the weather was warmer.

I didn't run last year and I came in with the Drake Relays being a bid deal for us (Baylor). We didn't win it last year and it was nice to see all the people come out to see us and support us. We set out to win here and that's all, we weren't worried about the record or anything, if that comes then thats great but we just set out to win. We set our all of our goals high, we don't set any mediocre goals. We set outrageous goals so we have something to work for.

Daniel Fredericks, third leg:

The people here were completely behind us and that is unusual because people like to lookj at the winner from last year. The crowd was really dynamic, they got behind us and made us run better.

We just wanted to win, it didn't matter about the weather or anything we just did what we had to do. If it takes a 3:10 or 3:15 to win, whatever the weather permitted us to run.

Butch Reynolds, Stanford, Calif., who won Men's 400-Meter Special Invitational in:

I need that competitive edge and competitive fight. That's why I came back to Drake (the crowd). Everything was here but the weather. It's a great town, a great crowd. It's a track place. Drake put on a superb meet.

I need to race more calloused. That's what I'm missing. I feel comfortable and confident, but I'm not getting the times. I figured on a better race between me and Danny. I made a move on the curve, but not as strong as I wanted. I should've went ahead and went for it at the jump. I thought I'd gave the qualifying time after only one or two meets. Lack of racing takes its toll. I'm confident I can get it. Once I drop I'm gonna drop. I'm far ahead of the game compared to '88. I didn't run a 44.7 'til May 7.

I'm happy with 45.92. I'm a much bigger, faster and sometimes more controversial Butch Reynolds. I feel happy and confident that the IAAF agrees with them (TAC). The system is not geared for the protection of athletes, but the system is geared for the protection of the system. I haven't lived my life the past two years. A lot of people thought I'd fall by the wayside. My upbringing is to fight. I'm ready to fight on the track. I'm tired of fighting legally and politically.
